About me

Passionate Full Stack Developer with 2 years of experience in designing, developing, and maintaining a dedicated Full Stack Developer with a strong foundation in Android and web development. My journey began as an Android Developer (April 2023 - Jan 2024), where I built mobile applications with a focus on performance and user experience. Transitioning into Web Development (Jan 2024 - Dec 2024), I honed my skills in front-end and back-end technologies, crafting responsive and scalable websites. Since January 2025, I have been working as a Full Stack Developer, integrating my expertise to build complete software solutions, maintaining web applications. Skilled in both frontend and backend technologies, I specialize in creating dynamic, user-friendly websites and scalable solutions. Proficient in modern frameworks and databases, I thrive in problem-solving and delivering high-performance applications.

Experience

Full Stack Developer

Jan 2025

SEO Global

As a Full Stack Developer, I combine my expertise in Android and web development to build end-to-end software solutions. Proficient in MERN stack, RESTful APIs, and cloud technologies, I develop dynamic, high-performance applications. My holistic approach ensures seamless integration between frontend and backend, optimizing scalability, security, and user engagement. Passionate about problem-solving, I thrive in delivering innovative and efficient software products.

Web Development

Jan 2024 - Dec 2024

Anch Technologies

Transitioning into web development, I mastered front-end and back-end technologies to create responsive, scalable websites. Skilled in JavaScript, React, Node.js, and databases like MongoDB & PostgreSQL, I developed full-fledged web applications with clean architecture and efficient APIs. My work emphasized intuitive UI design, performance optimization, and secure backend solutions, delivering robust digital experiences.

Android Development

April 2023 - Jan 2024

Anch Technologies

Passionate about mobile innovation, I specialized in Android development, building high-performance applications with a focus on seamless user experiences. Proficient in Kotlin, Java, and modern Android frameworks, I optimized app performance, integrated APIs, and followed best practices in UI/UX design. My contributions ranged from feature development to debugging and performance tuning, ensuring smooth and engaging mobile experiences.
