

# NITIN PANDEY

Software Developer

nitin.pandey1765@gmail.com ◇ 9157485617 ◇ linkedin.com/nitin pandey ◇ github.com/nitin pandey

## EDUCATION

---

**Bachelor of Engineering**, LD College Of Engineering 2020-2023

Course: Electronics and Comm Engineering (8.36 CGPA), (10 CPI)

**Diploma**, Dr. BBA Gov Poly College Karad DNH 2017-2020

Course: Electronics and Comm Engineering (9.54 CGPA), (9.7 CPI)

## EXPERIENCE

---

**Software Engineer** June 2023 - Present  
Einnosys Technology LLP *Ahmedabad*

- Contributed to the development of diverse products within the .NET framework, engaging with various databases such as SQLite, Oracle, and MS Access.
- Developed and collaborated on a console application, implementing multi-threading to enhance functionality and actively participated in debugging sessions to ensure application robustness.
- Contributed to WinSPC by managing data collection, analysis, and alert functionalities for machine-generated data.

**Python Developer Intern** Jan 2023 -May 2023  
TANB Virtual Infra PVT LTD *Ahmedabad Gujarat*

- Led the development of a Cloud Service Solution for **TANB Virtual Infra PVT LTD**, significantly enhancing the company's capabilities in the cloud-based domain.
- Resolved critical code errors and implemented robust exception handling, ensuring the reliability and stability of key systems.
- Successfully designed and executed a Python-based facial recognition project using the OpenCV library, demonstrating advanced technical proficiency and contributing to the company's innovation.

## SKILLS

---

**Java:** Spring Boot, JDBC, Hibernate, ORM.

**DOT-Net:** C# console application, Service Application, DLL, Desktop Application (WinForm/WPF).

**Python:** Basic Python Programming

**Database:** MySQL.

**JavaScript:** Basic Angular.

**Others:** HackerRank: JAVA-3\* — 120 Problems solved, HackerRank: SQL-4\*, OOPS, Data Structures & Algorithms, Design Pattern

## PROJECTS

---

**Factory Automation, Sole Developer**

- Engineered a service application designed to manage diverse data storage formats, encompassing SQLite, Oracle, and CSV.
- Implemented robust measures to ensure data consistency within the application and enabled reliable data transfer, even in inconsistent file or database availability.
- Leveraged the collected data alongside WinSPC to generate analytics and alerts about machine-generated data.
- Maintained daily communication with the client, actively gathering requirements and delivering regular updates to ensure alignment with project goals and client expectations.

### **EigemBox 3.0, Team Member**

- Developed a WinForm Application and WPF Application designed for creating recipes to guide another application's operations.
- Employed carefully considered design patterns and Multithreading, tailored to specific use cases and ease of access.
- Integrated functionality to read screens and perform tasks based on the extracted data using KVM and Tesseract.

### **Facial Recognition in Video Stream with Python, Sole Developer**

- Detecting and recognizing human faces in a video stream in real-time.
- Leveraged a diverse array of tools and functionalities to enhance project capabilities.
- Utilized OpenCV, a versatile machine learning library, for image and video manipulation([Click](#)).

### **Creating REST API using Spring Boot & JDBC, Sole Developer**

- Designed and implemented a REST API with Spring Boot and Java, seamlessly integrating SQL for effective data storage.
- Leveraged Postman to conduct thorough testing and validation of the developed API, ensuring its reliability and functionality.
- Implemented CRUD operations within the API, incorporated robust error handling mechanisms, and documented the entire process. Gained hands-on experience in creating APIs that are both efficient and secure.

### **CERTIFICATES**

---

- |                                                                        |                                                                  |
|------------------------------------------------------------------------|------------------------------------------------------------------|
| • SQL Problem Solving Certification with 4 star. <a href="#">Click</a> | • JAVA Problem Solving with 3 star Rating. <a href="#">Click</a> |
| • Victorious in the Singing Competition held at LD College.            | • 150+ Questions solved on LeetCode, GFG.                        |
