OBJECTIVES

As a recent graduate, I am seeking a position that will allow me to enhance my expertise in modern web and mobile app development with Flutter, contribute to innovative projects, and deliver scalable, high-quality solutions. I am eager to apply my foundational skills in responsive design, front-end frameworks, and back-end integration while growing professionally within a dynamic and forward-thinking team.

SKILLS

Programming Language : Python , Dart.

Web Script: JavaScript ,

Web Markup: HTML, BOOTSTRAP, CSS.

Tools : Notepad++, Visual Studio Code.

Framework: Flutter , Django

Database : MySql , Firesbase

PROFESSIONAL EXPERIENCE

FUERTE DEVELOPERS

Jan 2025 - March 2025

Intern

As Intern at Fuerte Developers from January 2025 to March 2025, I worked on developing the UI and implementing data storage using Firebase. My role involved creating intuitive user interfaces, integrating OTP authentication for secure access, and managing data retrieval and updates in Firebase. Additionally, I contributed to extending the platform to mobile development using Flutter, ensuring a seamless and responsive user experience across devices

AUKS IT SOLUTION

Oct 2023 - Jan 2024

Web Developer Intern

As a web developer, I was responsible for improving an existing website by adding new features that enhanced user experience and functionality. I utilized **HTML**, **CSS**, **Bootstrap**, and **JavaScript** to implement these updates, ensuring the site adhered to modern web standards and best practices. Additionally, I optimized the website's performance and successfully deployed the updated version on Hostinger, providing a smooth and reliable hosting environment.

SOFTPRO INDIA

July 2023 - Sept 2023

Trainee

We developed a comprehensive **ERP website** for students and teachers, enabling each individual to create their own account and access personalized academic information. The platform allows users to view and manage their documents, track their marks, and submit inquiries directly to the university. The website was built using **Python** with **Django** for robust back-end development. For local development and offline database management, we utilized **WampServer** to ensure seamless integration and testing before deploying the site live.

EDUCATION		EXTRACURRICULAR ACTIVITIES
Bachelor of Technology	2020-2024	Captain, Basketball College Team
Majors: Computer Science and Engineering Goel Institute of Technology and Management		Led my college basketball team as captain, fostering teamwork, strategic planning, and effective communication.
Intermediate	2018	Volunteers
Kisan Inter College		Volunteered at a college seminar, assisting with event coordination, participant management, and ensuring smooth execution of the program.
High School	2015	
Delhi Public Convent School		

PROJECTS

Student Helper

A final year project, revolutionizes education by offering tools such as a search engine, text-to-speech converter, spelling error detector, language translator, document-to-PDF converter, online dictionary, YouTube video downloader, and an online quiz platform. Developed with **HTML**, **CSS**, **Bootstrap**, **Python**, **Django**, and **SQLite**, this project enhances students' academic experiences by improving accessibility, accuracy, and engagement. The report highlights the development, implementation, and impact of Student Helper on learning outcomes and user satisfaction.

Weather App

Developed a weather app that provides accurate weather forecasts by utilizing APIs for data retrieval and employing front-end technologies for a user-friendly interface. This project demonstrates expertise in integrating external data sources and designing intuitive user experiences.

SOFT SKILLS

- **Adaptability:** Successfully adapted to changing project requirements and tight deadlines by quickly learning new tools and adjusting strategies to meet evolving goals.
 - **Problem-Solving:** Proactively identified potential issues in project workflows, implementing creative solutions that improved efficiency and minimized disruptions.
 - **Teamwork:** Collaborated seamlessly with cross-functional teams, contributing to a positive and productive working environment that consistently met or exceeded objectives.
 - **Good Communication:** Maintained clear and effective communication with team members and stakeholders, ensuring alignment on project goals and fostering strong working relationships.
-
