Experience

Bharat Intern

Web Developer Intern

August 2023 – August 2023

Remote

- Designed and developed a personal portfolio website from scratch, showcasing my web development skills and featuring a user-friendly interface to display my projects, skills, and contact information.
- Developed a temperature conversion web application using HTML, CSS, and JavaScript to provide a practical utility for users.

Oasis Infobyte

Front End Developer Intern

July 2023 – July 2023

Remote

- Designed and developed a fully functional web calculator using HTML, CSS, and JavaScript, enabling users to perform basic mathematical operations conveniently.
- Implemented JavaScript to handle user input, perform calculations, and display results dynamically, ensuring a seamless and responsive user experience.

Projects

Gemini Clone |

React, Javascript, CSS

March 2024

- Designed and built a fully responsive website from scratch using HTML, CSS, and JavaScript, ensuring seamless user experiences .
- Utilized HTML for structuring content, CSS for styling, and JavaScript for interactivity, resulting in a visually appealing and functional website.

File sharing App |

Javascript,React,Tailwind CSS

Dec-March

- Designed and implemented a secure file-sharing system with a 2 MB upload limit, incorporating robust authentication measures to ensure secure user access.
- Enhanced user experience by integrating direct email functionality, enabling users to send password-protected files directly through the system, adding an extra layer of data protection.

Weather Website |

HTML, CSS, Javascript

Aug 2023

- Implemented geolocation functionality, allowing users to grant access to their current location for personalized weather forecasts, enhancing user experience and engagement.
- Created a user-friendly interface with dynamic weather icons and animations to visually represent different weather conditions, improving overall user engagement.

Technical Skills

Languages: C++,C,Java,OOPs,DSA,JavaScript .

Frontend Technologies/Frameworks: HTML/CSS ,Tailwind,React

Database: MySql.

Developer Tools: VS Code, MS Word .

Soft skills:Dedicated,Flexible,Interpersonal skill,Team player .

Coding Platform

HackerRank: 4 Star in C++ and C.

LeetCode: 100+ Problem.

Coding stdio: 60+ Problem.

Vs Code: 50+ Problem.
