CAREER OBJECTIVE

“To pursue a challenging career and be a part of progressive organization that gives a scope to enhance my knowledge and utilizing my skills towards the growth of the organization”.

- I have **1+ years of experience including requirements analysis, applications design and development of Full-Stack Web Applications.**
- Experienced as a " Full-Stack " Web Developer in developing applications using web **React,JavaScript,Redux, Express.js,Node,MongoDB.**
- Good understanding of **Document Object Model (DOM)** and **DOM** functions.
- Responsive Web Design (**RWD**) for **Mobile/Tablet/Desktop.**
- Knowledge in developing applications in a single page (SPAs) using JavaScript libraries like **React.**
- Knowledge of working with **RESTFUL Web Services** and implementing **RESTFUL API's.**
- Experience with Version Control tools like **GIT** for source Code version management .
- Ability to work independently as well as within a team environment.

EXPERIENCE

Working as Software Developer at KGN Infotech Pvt Ltd from October 2023 to Till Date,Ghaziabad.

SKILLS

React	Express.js	Version Control (Git)	Bootstrap
JavaScript	Node.js	CSS3	Responsibility
Redux	API Integration	Debugging	Punctuality
HTML5	Responsive Design	Tailwind CSS	Teamwork

PROJECTS HANDLED

E-commerce Shopping Platform.

April 2024

- Designed and developed a robust functional E-Commerce platform using react and **Redux** incorporating three key modules **product listing ,cart** and **Orders**.It features **responsive design**, real-time updates, and a smooth user interface,ensuring high scalability and excellent user interaction.With Redux at the core for **state management**, the platform efficiently handles product data, cart operations, and order history, providing a high-performance even with large datasets..
 - Developed robust **CRUD APIs** using Node.js, enabling seamless interaction between the front end and the backend for modules like product listings.
 - Organised an efficient product search by name with advanced filtering (category, price, rating) using optimized API calls and performance techniques like **memoization, debouncing**, and **lazy loading** to reduce redundant requests and improve responsiveness.
 - Managed consistent data flow across Product Listing, Cart, and Orders modules using centralized state.
 - Integrated search and filter functionalities with **backend APIs**, implemented infinite scrolling for large datasets (**10,000+ products**), and optimized data loading for order tracking and history pages. Conducted debugging, testing, and code reviews to ensure high-quality standards.
- Technologies used- React ,Redux, JavaScript, HTML5, CSS, Bootstrap, Rest Api ,Npm,Node.js,Express.js ,Git.

- Developed a robust **Node.js** application for managing college data, including student, course, and professor records. Integrated secure and efficient CRUD operations, ensuring smooth and scalable backend interactions between users (students, professors, admins) and the system.
 - **Pagination , Filtering & Sorting** Implemented for fetching large datasets (e.g., student lists or course catalogs), ensuring **optimized API performance**.
 - It provides comprehensive functionality for admins to securely create, read, update, and delete student records, course details, and professor information.
- Technologies used- JavaScript,Node.js,Express.js,MongoDB,Mongoose.

EDUCATION

BACHELOR OF TECHNOLOGY (2017-2021) BUDDHA INSTITUTE OF TECHNOLOGY ,UP	SECONDARY SCHOOL (2014-2016) STEPPING STONE INTER COLLEGE ,GORAKHPUR,UP
---	---

ADDITIONAL INFORMATION

- **Languages:** English,Hindi,Nepali.
- **Certifications:** INFOCAMPUS TRAINING INSTITUTE | Frontend development
- **Awards/Activities:** Bagged with certificate of merit in"National Level talent search examination"
