SUMMARY

Software Developer with 1+ year of experience and strong expertise in JavaScript, React, Node.js, Next.js, MongoDB, and MySQL. Skilled in building responsive web applications, admin panels, and dashboards. Passionate about problem-solving, collaboration, and delivering scalable, client-focused solutions.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C, JavaScript, TypeScript
- **Web Technologies:** HTML5, CSS3, React, Redux, Next.js, Node.js, Express.js, Tailwind CSS, Bootstrap
- **Databases:** MySQL, MongoDB, Firebase
- **Tools & Platforms:** Git, GitHub, REST APIs, OpenAI GPT
- **Soft Skills:** Problem Solving, Teamwork, Communication, Time Management

EXPERIENCE

Jr. Software Developer | *T.S. Mishra University*

Sept 2024 – Present

- Collaborated in a team of 3 to build a Complaint Login Portal and E-Logbook using MySQL, React.js, Node.js, and Express.js, enhancing institutional workflow and user accessibility.
- **Integrated LDAP authentication with Active Directory** to enable secure, role-based user access for staff, students, and administrators.
- **Developed an Asset Management System** within the portal to track and manage institutional assets efficiently, streamlining allocation and maintenance workflows.
- **Built an E-Logbook module** to manage and monitor all postgraduate (PG) assignments, enabling guides and HODs to review, remark, and approve submissions in real time.
- **Implemented automation features** for report generation and status updates using **Node.js, Cron Jobs, and ExcelJS**, reducing manual administrative effort by over **60%**.
- **Designed responsive and intuitive dashboards** with **React.js and Tailwind CSS**, improving user experience and data visibility across departments.

PROJECTS

Team Collaborative Task Manager | *MongoDB, Express.js, React, Node.js, Firebase, Redux*

[Link](#)

- Developed a comprehensive task management platform featuring robust role-based authentication, granular task assignments and priority settings; system now **manages 1,000+ active tasks**..
- Implemented admin and user dashboards with real-time task tracking, status updates, and integrated comments/chat for improved workflow efficiency devices.

Real-Estate Application | *React, Redux, Tailwind CSS, Nodejs, Firebase*

- Developed a dynamic real-estate web application that allows users to browse, list, and manage property details with real-time updates.
- Implemented user authentication and data storage using Firebase, enabling secure login, registration, and property management.

EDUCATION

Bachelor of Computer Applications

University of Lucknow, Lucknow

Graduated: 2024

CGPA: 7.71 / 10
