

AKBAR NAEEM

Lucknow, U.P. | +91-9792020033 | akbarnaeem09@gmail.com | [Github](#) | [LinkedIn](#)

EDUCATION

BABU BANARSI DAS UNIVERSITY

Bachelor of Computer Applications

Specialization: Data Science & Artificial Intelligence

Lucknow, U.P.

Expected Jun 2026

ST. DON BOSCO COLLEGE

Higher Secondary Education (Class XII – CBSE)

Specialization in Science with core subjects: Physics, Chemistry, Biology, English and Hindi

Lakhimpur, U.P.

May 2020

EXPERIENCE

ARTIFICIAL INTELLIGENCE INTERN

Remote,

AICTE | IBM SKILLS BUILD | EDUNET FOUNDATION

Oct 2025

- Meme Editor interface, improving usability and interaction efficiency by 75%.
- Developed clean and high-quality meme output generation with enhanced editing accuracy by 70%.
- Improved project functionality and responsiveness by 65% through refined UI design and editing workflows.

CONVERSATIONAL DATA ANALYSIS INTERN

Remote,

AICTE | VODAFONE IDEA FOUNDATION | EDUNET FOUNDATION

Oct 2025

- Improved insight accuracy by 70% through real-time analysis of Airbnb pricing and occupancy trends.
- Boosted content understanding by 65% via exploration of Netflix engagement and performance data.
- Increased actionable insights by 60% using LLM-driven conversational data analysis.

PERSONAL PROJECTS

BANK CUSTOMER CHURN PREDICTION MODEL USING IBM SPSS MODELER

Oct 2025

- Built a CHAID decision tree model in IBM SPSS Modeler to accurately classify churn and identify high-risk customer segments.
- Generated clear churn drivers (age, tenure, balance, transactions) that support targeted retention strategies for banks.

CUSTOMER SEGMENTATION FOR E-COMMERCE

Aug 2025

- Performed customer segmentation using K-Means clustering to group buyers by behavior, enabling more precise and effective targeted marketing.
- Identified key purchase and engagement patterns that strengthened personalization strategies and improved customer retention.

CERTIFICATION

IBM ARTIFICIAL INTELLIGENCE FUNDAMENTALS

May 2025

IBM | [Link](#)

Developed a strong practical foundation in core AI concepts through IBM's hands-on exercises, real-world case studies, and introductory machine learning and neural network modules.

PYTHON ESSENTIALS 2

Dec 2024

Cisco Networking Academy | [Link](#)

Developed strong Python programming expertise through Cisco's hands-on modules, progressing into advanced concepts like OOP, modules, and exception handling while solving real-world coding challenges.

SKILLS

Programming & Databases: Python Programming Language, SQL, NoSQL, Linux (basic).

Data Analysis & Visualization: Data Wrangling, Exploratory Data Analysis (EDA), Power BI, Tableau.

Machine Learning: Regression, Classification, Clustering, Feature Engineering, Model Evaluation.

Tools & Platforms: Extract-Transfer-Load, Bash/Shell, Microsoft Office Suite, IBM SPSS Modeler, Git/GitHub.

Soft Skills: Problem-Solving, Critical Thinking, Communication, Collaboration, Analytical Mindset.
