OBJECTIVE

Passionate Frontend Developer with a strong foundation in web technologies and a keen interest in building user-friendly, responsive web applications. Proficient in HTML, CSS, JavaScript, and modern frameworks. Seeking an opportunity to apply my skills in a challenging and dynamic environment.

SKILLS

Frontend Technologies:: HTML, CSS, JavaScript

Backend Technologies:: PHP, MySQL

Programming Languages:: C Programming, C++, Java

Tools & IDEs:: VS Code, GitHub

Soft Skills:: Communication, Problem Solving, Teamwork, Adaptability

EDUCATIONAL BACKGROUND

Master of Computer Application

Kashi Institute of Technology

Oct 2022 – Jul 2024

Varanasi, India

Bachelor of Computer Application

Kashi Institute of Technology

Aug 2019 – Sep 2022

Varanasi, India

CERTIFICATES

- Ethical Hacking by Rajat Grover FNCareers
- Diploma in Web Designing from Gyanoday Group of Institutions

INTERESTS

Watching Tech Tutorials | Listening Songs | Playing Games

PROJECTS

KnowUrSchool

- Developed a web platform to help students search for schools efficiently.
- Integrated a database to store and manage school-related information.
- Utilized HTML, CSS, JavaScript for the frontend and PHP, MySQL for backend functionalities.
- Developed and tested the website using VS Code.

Earth Rotation around SUN

- Developed an interactive solar system simulation using HTML and CSS, featuring animated orbits for Earth and Moon around the Sun.
- Implemented responsive design principles to ensure seamless display across various devices and screen sizes.
- Utilized CSS animations and keyframes to create realistic orbital movements, enhancing user engagement.
- Incorporated semantic HTML elements and structured styling for improved accessibility and maintainability.

Parking Management System

- Developed a Vehicle Parking Management System in C, implementing vehicle entry, exit, and parking slot tracking functionalities.
- Utilized data structures and file handling to manage and store vehicle records within the system efficiently.
- Designed a user-friendly console interface, enabling seamless interaction and real-time updates for parking operations.
- Ensured system scalability and maintainability by adhering to modular programming principles and thorough code documentation.
