Professional Summary

A motivated and detail-oriented IT professional with a Bachelor's and Master's in Computer Applications. Equipped with a solid foundation in programming, software development, and data analysis, I possess a strong passion for technology and continuous learning. Eager to apply my academic knowledge and technical skills to real-world challenges, I am dedicated to contributing to innovative IT solutions and developing my career in the technology sector.

Education

Manipal University Jaipur	2022 - 2024
Masters of Computer Applications	

Babu Banarasi Das University	2018 - 2021
Bachelors in Computer Applications	

Projects

Stretch & Sip Timer Extension

Created an innovative Google Chrome extension that promotes physical well-being for desk-bound users. Built with JavaScript, JSON and HTML, this extension allows customizable timer settings for hydration and stretch reminders, offering an easy solution to combat prolonged inactivity.

YouTube Pause Extension

Built a Chrome extension using JavaScript, HTML, and JSON that streamlines YouTube video playback by automatically pausing and resuming videos when users navigate between tabs. This solution addresses a common user inconvenience, simplifying multitasking on YouTube.

Google Gemini AI Image Generator

Designed an intuitive Text-to-Image generation tool utilizing the Gemini API, JavaScript, HTML, CSS, and AI model (pompthero/openjourney-v4) from Hugging Face. Users can enter prompts to generate and download images instantly, enhancing creativity and productivity with automated visual content creation.
