🧠 SUMMARY

Full Stack Developer with **1.5+ years of experience** in developing and training projects using **Django, React, Next.js, and Node.js**.

Specialized in building scalable web applications, REST APIs, and dynamic UI systems.

Delivered and trained multiple projects across **education, healthcare, and eCommerce domains**.

Passionate about backend development, problem-solving, and helping others grow through technical mentoring.

💻 SKILLS

Frontend: React, Next.js, Tailwind CSS, JavaScript (ES6+), HTML5, CSS3

Backend: Django, Tryton, Node.js, REST APIs, Authentication, Payment Gateway Integration

Database: PostgreSQL, MongoDB, MySQL

CMS & E-commerce: WordPress (custom plugins, backend dev), Shopify

Data Science / ML (Basics): Python (NumPy, Pandas, Matplotlib, TensorFlow, Hugging Face)

Other Tools: Git, Docker, Excel, PHP (legacy projects), Render, Vercel

EXPERIENCE

LDT Technology Pvt. Ltd. – Full Stack Developer

 Sept 2025 – Oct 2025

- Worked on **School Management System** and **Appointment Management System**, contributing to both frontend and backend.
- **School Management System:**
 - Built **3 modules** (Student Management, Attendance, and Fee Tracking) using **Next.js**.
 - Fixed and enhanced backend APIs built in **Python (Tryton framework)** for stability and scalability.
 - Improved data handling and optimized API performance.
- **Appointment Management System:**
 - Developed **4 modules** (Doctor Scheduling, Booking, Dashboard, Reports) using **Next.js + Django**.
 - Resolved backend integration issues and refined authentication flows.
 - Enhanced frontend performance and responsive design using Tailwind CSS.

Creative Monk – Full Stack Developer

 March 2025 – Sept 2025

- Delivered **6+ client websites** using **React, Next.js, Django, PHP, WordPress, and Shopify**.
- Optimized site performance achieving **up to 40% faster load times** through API caching and lazy loading.
- Integrated REST APIs, developed custom WordPress plugins, and implemented secure authentication systems.
- Collaborated with cross-functional teams to ensure scalable architecture and SEO-friendly design.

CADL (Chandigarh Academy of Digital Learning) – IT Trainer & Full Stack Developer

 May 2024 – Feb 2025

- Trained **students and interns** in:
 - **MERN Stack (MongoDB, Express, React, Node.js)**
 - **Python Full Stack Development (Django, REST APIs)**
 - **Data Science** (NumPy, Pandas, Matplotlib, Scikit-learn)
 - Designed and delivered structured course modules, project-based learning, and coding challenges.
 - Mentored over **80+ students** on full-stack project architecture and deployment (Vercel, Render).
 - Built internal web applications and tools using **Next.js, Django**, and **Node.js** for training purposes.
 - Ensured students understood **API integration, authentication systems, and deployment pipelines** end-to-end.
-

PROJECTS

School Management System

- Built **3 core modules** (Student, Attendance, Fees) using **Next.js frontend** and **Tryton backend APIs**.
 - Optimized API queries and improved dashboard responsiveness by 35%.
 - Implemented secure role-based authentication and improved database normalization.
-

Appointment Management System

- Designed **4 main modules** (Scheduling, Booking, Dashboard, Reports) using **Next.js + Django REST Framework**.

- Fixed backend bugs, improved authentication logic, and streamlined appointment flow.
 - Enhanced frontend performance with optimized rendering and Tailwind components.
-

XtraROMs

- Developed a **full-stack platform for custom ROMs and Magisk modules** using **Next.js + Django**.
 - Added **authentication, search, and filtering** features with server-side rendering for performance.
 - Built automation logic to fetch data dynamically from multiple sources.
-

Brightlight Immigration

- Created SEO-optimized website using **Next.js, Tailwind CSS, Node.js, and MongoDB**.
 - Improved page performance metrics and reduced bounce rate with clean routing.
-

Dhody & Company

- Corporate website built on **WordPress** with custom dynamic forms and backend integration.
-

Adv. Mandeep Nain & Associates

- Developed a **React-based legal platform** with fast routing and smooth UI transitions.
-

Chatha Foods

- Built **eCommerce platform in PHP**, integrated product catalog, order, and inventory management.
-

Amazon Automation Tool

- Created **Python + Django automation tool** for managing Amazon product listings via Selenium.
 - Automated listing updates and improved manual workflow efficiency.
-

EDUCATION

RR Institute of Modern Technology – B.Tech in Information Technology (2020 – 2024)

Saraswati Vidya Mandir – 12th (2020)

St. Antony's Inter College – 10th (2018)

ADDITIONAL INFO

- Passionate about **Python, backend systems, and machine learning applications**.
- Currently exploring **AI-driven automation, API design, and scalable architectures**.
- Love mentoring, teaching, and building products that solve real-world problems.
