Education

- 2017-20
Bachelor of Computer Applications
Mahatma Gandhi Kashi Vidyapith,
Varanasi
- 2016-17
12th Boards
HMS, Varanasi
- 2015-16
10th Boards
Sunbeam School Lahartara,
Varanasi

Expertise

Language and Frameworks:

Java, JavaScript, HTML, CSS, Angular, ExpressJS, Spring, Spring Boot, NodeJS

Other Tools:

MongoDB, MySQL, Git, GitHub, Maven, AWS, Docker, Kubernetes, Jenkins, Junit Testing, Hibernate.

Language

English

Hindi

Rahul Singh

I am an IT enthusiast with BCA degree from Mahatma Gandhi Kashi Vidyapith, Varanasi. I am a professionally trained java developer, a quick learner interested in acquiring new skills through work experience. I look forward to applying my skills to gain business benefits. I am passionate about learning new technology and along the way develop my skills including leadership, management and team building to help professional organizations reach business goals. I look forward to work for clients which will provide me opportunities to interact with variety of people from different geographies.

I have a "can do" attitude and a team player, who values discipline, hard work, focus and ready to take on new challenges and come up with innovative solutions.

Academic Experience

Below is list of web projects that I have been working on as a full stack developer during 2023, using latest web frameworks and technology stack. These could also be referred on my GitHub profile. I am also proactively working towards gathering knowledge on Cloud, ML and AI space.

Medicare (github.com/RAHULSINGH8181/medicare)

Medicare is a dynamic commercial e-healthcare responsive web application. It is used for ordering medicine products advertised in different categories. The e-commerce application's middle layer/backend is built using Spring Boot, Spring Data JPA and MySQL technology stack to implement the business functions and the front-end is implemented using Angular in a modular way. On high level, the front tier is segregated using Model, Components and Services tiers and consists of a Cart component to serve customers selections. The project also uses Maven to manage different backend module dependencies including build and packaging for deployments.

Tech Stack - Java,HTML,CSS,Angular,NodeJS,Spring,Spring Boot,Maven,MySQL,GitHub

Kitchen Story (github.com/RAHULSINGH8181/Kitchen-Story)

Kitchen Story is an e-commerce portal that lets people shop basic food items on their website. This web application can be used by either Customers who want to buy a product or an Admin user to manage the website. The website has features for Login (Admin & Customer), Manage products, Product Cart, Order Reports and to Manage customers. Users can also search for food items to be purchased and list available food product items along with their prices.

Tech Stack - Java,HTML,CSS,Spring,Spring Boot,Maven,MySQL,GitHub

Sporty Shoes (github.com/RAHULSINGH8181/Sporty-Shoes)

Sporty Shoes is an e-commerce web application. It is used to sell and order variety of shoes online via web portal. The application can be used by both customers & administrators. This website has admin features like login, change password, manage products, manage customer, manage purchase/orders and for the customer end it has features including register, login, search products, choose quantity & size, add cart, view cart, pay & buy products, view previous active orders.

Tech Stack - Java,HTML,CSS,Spring,Spring Boot,Maven,MySQL,GitHub

Online Test App (github.com/RAHULSINGH8181/Online-Test-App-1)

The Online Test Application is an application that enables users to provide online tests, review them, and display the results. This system contains three main modules: Quiz, Review, and Result. The quiz section of the online test application accepts the questions in JSON format. The JSON file can be easily shared from the server in the pre-defined format. The application renders the test at the client-side. The "Review and display result" section allows users to declare the results immediately.

Tech Stack - Java,HTML,CSS,Angular,NodeJS,Spring,Spring Boot,Maven,MySQL,GitHub

Professional Training

2022-23 - SIMPLILEARN SOLUTIONS PVT LTD, BANGLORE

(success.simplilearn.com/67b71732-cd21-4799-bef4-b66b34749a4f)

I have completed bootcamp master's certification for full stack Java developer to get a complete suit of software development skills and also to get the essence of front-end, middleware, and back-end Java web developer technologies.
