Career Objective

Dynamic and skilled Front-end Developer with a passion for creating user-friendly and visually appealing web applications. Proficient in Frontend Development with hands-on expertise in HTML5, CSS3, JavaScript, Redux, and REST APIs. Seasoned in Version Control utilizing Git and GitHub, ensuring collaborative and streamlined development processes. Seeking to leverage my technical expertise and creative problem-solving skills to contribute effectively to innovative front-end projects in a dynamic team environment.

Projects

Relax | Clickable Link March 2024 - March 2024

- Develop Relax as a web application featuring diverse program offerings and promoting peace.
- Guarantee full responsiveness, incorporating React smooth scrolling and a slider component for seamless navigation.
- Enhance user interface by integrating responsive design elements to maintain consistency across various devices.
- Integrate a functional contact form to facilitate communication and engagement with users.
- Ensure a smooth user experience by optimizing performance and usability throughout the website.

Comfy | Clickable Link March 2022 - March 2022

- Developed an E-commerce application, Comfy, offering a diverse range of furniture products
- Created web pages using HTML and CSS and made them dynamic using JavaScript
- Improved UI by adding responsive design elements for a uniform experience across different devices
- Collaborated with the design team using Figma to meet design requirements
