OBJECTIVE

Detail-oriented and passionate web developer with one year of hands-on experience designing, developing, and maintaining web applications. Proficient in HTML, CSS, JavaScript, and modern frameworks such as React and Node.js. Eager to apply my skills in problem-solving and user-centric design in a dynamic team environment. Seeking a challenging opportunity to further enhance my technical abilities, contribute to innovative web solutions, and grow as a developer.

EXPERIENCE

Nityo Infotech Pvt. Ltd.

Web Developer

JAN-2024 To JAN 2025

- Passionate about building both front-end and back-end solutions that deliver seamless and engaging digital experiences.
- Proficient in front-end technologies including HTML, CSS, JavaScript, and React to create responsive, user-friendly interfaces.
- Strong experience in back-end development with Node.js, Express, and databases such as MongoDB and MySQL to build scalable and efficient web applications.
- Focused on ensuring that applications are not only visually appealing but also highly functional and easy to use across multiple devices.
- Skilled in version control tools such as Git to collaborate effectively and manage project development.
- Dedicated to staying up to date with the latest trends in both front-end and back-end technologies to continuously improve development practices.
- Collaborative team player with experience working cross-functionally with designers, developers, and project managers to deliver high-quality solutions.
- Seeking an opportunity to apply my full-stack development skills to contribute to innovative projects, enhance user experiences, and grow professionally in a dynamic development team.
- Actively enhancing my skills through online courses and personal projects to stay current in a fast-paced field.

iQuincesoft Pvt. Ltd.

Frontend Developer

OCT-2023 To DEC 2023

- Passionate about creating beautiful, user-friendly interfaces for websites and apps.
- Proficient in HTML, CSS, and JavaScript to ensure smooth performance across all devices.
- Focused on designing not just visually appealing, but highly intuitive and accessible digital experiences.
- Dedicated to staying up to date with the latest web design trends and principles to keep designs fresh and engaging.
- Skilled in debugging, testing, and optimizing websites for performance and speed across various browsers and devices.
- Collaborative team player with experience working in agile development environments to meet tight deadlines.
- Aiming to contribute my knowledge and skills to a dynamic team, enhancing both functionality and user satisfaction.
- Actively engaged in continuous learning through online courses and web development communities to stay ahead of industry advancements.

PROJECTS

Voice Text Editor

- Cross-platform software with seamless functionality.
- Implemented using Tkinter, a popular Python GUI toolkit.
- Utilized automatic speech recognition (ASR) for voice-to-text conversion.

Old Gadgets Selling Website

- Convenient platform for buying and selling used devices.
- My role was to design the front end using this tech stack and make it responsive.
- Tech stack: HTML5, CSS, Bootstrap v5.2, jQuery, JavaScript, responsive design.

EDUCATION

Master of Computer Application , GLA University	2022 - 2024
Bachelor of Computer Application , GLA University	2019 - 2022
Intermediate , Shree Bhagwan Inter College Goverdhan	2016 - 2018
High School , Goverdhan Vidhyapeeth Goverdhan	2014 - 2016

SKILLS

Technical Skills

HTML5: headings, paragraphs, anchor tags for links, image embedding, lists, nesting elements, and semantic tags like much more.

CSS3: Selectors, Typography, CSS Grid Layout, Flexbox, CSS Variables, Responsive Design Techniques, Animations and Transitions, CSS Grid Frameworks.

JavaScript: introduction to JavaScript, Core JavaScript, How script works in the browser, DOM, BOM, JSON, JQuery.

GSAP: introduction to GSAP, Installation of GSAP, scrollTrigger, Timelines, Plugins, Utility Methods, control Methods, eases and much more.

React: introduction to React, Installation of React, React render HTML, react jsx, React flow and structure, Components, Props, Dynamic values, Hooks, React css styling, react router.

Bootstrap5, Tailwind Css: learned about tailwind and bootstrap in-built classes, Layout, Alignment, typography, css effect, responsiveness, animations.

Git Github: Configuration, Local Repository Commands, Remote Repository Commands, ignore files, Cloning, Branching and merging, Forking and pull requests.

Linux Commands: Introduction to Linux, Directory Structure, The Shell, System Commands.

C programming: History of C, variables, datatype, operators, loops, Conditions and If Statements, Pointer, string, array, structure, functions, recursion and files.

C++ Programming: History of c++, introduction to c++, control statement, functions arrays, pointer, oops concepts, Exceptions, namespaces.

Java Programming: Core java, Strings, arrays, object oriented programming, exception handling, constructor, method overriding/overloading, multithreading, wrapper class and much more .

Database management system: introduction to database, type of database, three schema architecture, ACID properties, ER model concepts, DBMS keys, relational algebra, normalization, transaction processing, concurrency control and much more.

Node.js: Introduction to node, using to node, native node module, HTTP module, file system, node package manager, install npm package, ECMAScript vs CJS and more.

API: Introduction API, structuring API requests, JSON, Make server-side API request, REST API.

Express.js: Introduction to express, request, response, get , post, routing, cookies, HTTP request, nodemon, postman, introduction to middleware, custom middleware, .

PostgreSQL: Introduction to PostgreSQL, features of PgAdmin4, keys, CRUD operation, Constraints, Keywords, Relationships in postgresQL, Joins, Aliases, much more.

Professional Skills

- Effective team collaboration for project success.
- Proficient in time management and productivity optimization.
- Problem-solving and troubleshooting skills.
- Flexibility to learn, evolve, and thrive in changing environments.

CERTIFICATIONS

Front-end Web Development Bootcamp, Udemy, 2023.:

In the Udemy Front-end Web Development Bootcamp of 2023, I mastered the fundamental pillars of web development. Semantic HTML empowered me to structure content meaningfully, while CSS Flexbox and Grid enabled the creation of flexible, responsive layouts. With JavaScript ES6, I embraced modern syntax and features like arrow functions and template literals for more efficient coding. Embracing responsive web design principle.

Certification in C++ programming :

As a certified programmer in core C++ programming, I possess a deep understanding of its foundational concepts and advanced techniques. Proficient in writing efficient, modular, and high-performance code, I excel in designing and implementing complex algorithms, data structures, and object-oriented solutions.

EXTRA-CURRICULAR ACTIVITIES

- Participated in an informative 'Software Developer' workshop.
- Certificate in HTML and CSS from "Great Learning Academy".

DECLARATION

- I affirm that all the information mentioned above is accurate and true to the best of my knowledge.
