OBJECTIVE

I'm a Computer Application student. I'm very enthusiastic, easygoing, energetic, motivated, open-minded, practical and smart. I believe in hard as well as smart work to achieve anything. I'm a deterministic person and have a passionate about my career. I love to do things that uplift me one step ahead than yesterday. I love to involve myself in innovative startups. I want to be an explorer of everything that did. Skilled in C programming, Python, Machine learning, SQL, Java, Data structure, love to be a technical supporter, Event Management, Public Speaker, Project lead and Team Management.
