TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React, and Redux.
- **Backend:** Node, Express, Next.
- **Database:** MySQL, MongoDB, and Firebase.
- **Version Control and Tools:** Git, Github, Postman, Vercel, and Vite.
- **Languages:** C++, Core Java, Data Structures.

INTERNSHIP

Fullstack Web Development Intern - Pepcoding Private Limited

May'22-Nov'22

Instagram Clone [\[Link\]](#)

- Led the end-to-end creation of an Instagram clone using the **MERN** stack. Tailwind CSS for modern **UI** design and **Node** for seamless database management. Implemented **CRUD** operations and real-time features using **React Hooks**.
- Collaborated seamlessly with teams to integrate **front-end** and **back-end** components of the Instagram clone. Ensured continuous communication for issue resolution and **code optimization**.
- **Tech Stack:** React, Node, Next, Express, Mongo, and RESTful APIs.

PROJECTS

Food4U App [\[Link\]](#)

- Engineered a robust food application and intuitive ordering system using the **MERN** stack. Employed **MongoDB** for efficient data management, **React** for dynamic user interfaces, and integrated real-time updates for placing orders.
- Designed features such as '**My Order**' and '**Add to Cart**' functionality and utilized 4 to 5 **RESTful APIs**.
- **Tools and Technologies:** React, Node, Mongo, and RESTful APIs.

Netflix Clone [\[Link\]](#)

- Led Netflix clone development, excelling in **React** for a responsive UI. Ensured secure authentication with **Firebase** and optimized data flow using **Redux Toolkit** for efficient state management.
- Developed a Node backend with **APIs** for MongoDB, ensuring seamless operations such as adding, retrieving, and deleting movies. Enables users to seamlessly manage favorite movies through a personalized '**MyList**' page.
- **Tools and Technologies:** React, Redux Toolkit, Node, Firebase, Mongo, IMDB API.

Camera App [\[Link\]](#)

- Camera App application enables users to capture and preserve memories through photo capture and recording functionalities with the help of **MediaRecorder API** and **Event Listeners**.
- Functionality includes saving pictures, recording videos, a **gallery page**, and **filters** for capturing pictures.
- It is structured using **HTML, CSS, JavaScript**, and media saved in **IndexedDB**.

EDUCATION

Aryan Institute of Technology, Ghaziabad

2020-2023

- Bachelor of Technology in Computer Science | CGPA: **7.6/10**

Jamia Millia Islamia University, New Delhi

2017-2020

- Diploma in Computer Engineering | CGPA: **8.0/10**
