Mr. Nikhil Sachan

Software Developer

I am Nikhil Sachan, a Computer Science and Engineering student with a passion for learning and growth. I am eager to join a dynamic organization where I can contribute my skills and knowledge while staying updated with the latest trends in my field. I am committed to personal development as well as contributing to the organization's success.

Experience

March 2024 - Present

Augurs Technologies Pvt. Ltd | Full Time

Software Developer

Technologies:- Nodejs with Express, PHP with Laravel and HTML, CSS, JavaScript & MySQL.

I have recently started my role at Augurs Technologies Pvt. Ltd., a dynamic and innovative technology company at the forefront of cutting-edge solutions. As a part of this forward-thinking team, I am excited to contribute my skills and expertise to drive technological advancements and create impactful solutions for our clients.

December 2022 - February 2024

Softfix Technologies OPC Pvt. Ltd | Full Time

Laravel/Node.js Developer

Technologies:- Nodejs with Express, MongoDB, PHP with Laravel and HTML, CSS, JavaScript & MySQL.

I work as a Node.js Developer at Softfix Technologies OPC Pvt. Ltd. Before, I used the Laravel framework to make websites better. I do both front-end and back-end work, teaming up with different groups to make great solutions. After a little while, I started using Node.js with Express and MongoDB. Now, I lead Node.js projects, making really good solutions.

December 2021 - December 2022

Webflair | Full Time

Jr Software Developer

Technologies:- Node.js with Express Framework, MongoDB, HTML, CSS, JavaScript.

As a Web Developer Intern at Webflair, I engaged in hands-on experience within a dynamic development environment, gaining valuable insights into web technologies, best practices, and project collaboration. My internship was marked by a proactive approach to learning and contributing to various stages of web development.

Certificates

- Certificate of 6 months internship in Laravel & CI.
- Certificate in Core Java from BTPS, Kanpur.
- Certificate of 3 months internship in WordPress.

Hobbies & Interests

- Learning new things.
- Reading.

Projects

Real - Estate

Project Name : My Property Dr

Role and Responsibilities:- As the sole architect and developer behind My Property Dr, I spearheaded the end-to-end creation of a robust and dynamic web application. My role encompassed not only envisioning and executing the entire project but also imbuing it with rich functionalities through Laravel, HTML, CSS, and Bootstrap technologies.

Project Name : PB Estate

Role and Responsibilities:- In the capacity of a Freelance Full-Stack Web Developer, I undertook the monumental task of crafting PB Estate entirely from scratch. My role encompassed not only conceiving the project's architecture but also intricately weaving in a diverse array of functionalities. This was achieved through the strategic utilization of Laravel, HTML, CSS, and Bootstrap technologies.

IMS-Projects

Project Name : BDSPM

Role and Responsibilities:- In my capacity as a Freelance Web Developer, I undertook a multifaceted role in the development of BDSPM(Institute Management System). This encompassed the meticulous creation and integration of various modules, including student admission, invoice generation, section management, bulk SMS dispatch, and payment history maintenance. These modules, crafted using a blend of CodeIgniter, HTML, CSS, JavaScript, jQuery, and Ajax, synergistically formed a comprehensive and dynamic web application.

Management System

Project Name : NHK

Role and Responsibilities:- During my tenure at Softfix Technologies OPC Pvt. Ltd, I played a pivotal role in the development and management of an intricate web application encompassing multiple crucial modules. These modules included rental order management, sale order processing, integration of the Razorpay Payment gateway, pharmacy project management, and comprehensive stock management. This dynamic project, built using Laravel, HTML, CSS, JavaScript, jQuery, and Ajax, showcased my ability to navigate diverse technologies and create a seamless user experience.

CRM

Project Name : LSA

Role and Responsibilities:- During my tenure at Softfix Technologies OPC Pvt. Ltd, I played a pivotal role in developing a multifaceted project encompassing a range of crucial modules. Leveraging my expertise in Laravel, HTML, CSS, JavaScript, jQuery, and Ajax, I meticulously crafted and integrated modules like ITR filling, sale order management, Razorpay Payment gateway integration, WhatsApp API integration, automatic receipt generation, and subscription order management etc.

E-Commerce

Project Name : Taausha

Role and Responsibilities:- During my freelance tenure, I undertook a pivotal role in the development of Taausha(E-Commerce), specifically focusing on UI integration, product management, and the addition of new features. By harnessing the power of Laravel, HTML, CSS, JavaScript, and jQuery, I successfully contributed to enhancing the project's overall functionality and user experience.

Project Name : FIAPL

Role and Responsibilities:- During my time as a freelance developer, I played a key role in enhancing the capabilities of the FIAPL. My primary focus areas included implementing an advanced Shipping Cost Management system based on country and quantity, as well as introducing additional features to elevate the overall functionality of the application.

SkinOCare

Project Name : SkinOCare

Role and Responsibilities:- I played a major role in setting up the entire backend and database for the Skinocare project during my tenure at Softfix Technologies OPC Pvt. Ltd. The project was developed using Node.js with the Express.js framework and MongoDB database.
