EDUCATION

IMS Engineering College, Ghaziabad, India

B.Tech in Computer Science, 2016-2020

- Percentage: 82%

TECHNICAL SKILLS

- Web Technologies:** HTML, CSS, Bootstrap, JavaScript (ES6+)
- Frameworks and Libraries:** React.js, Redux, Hooks, Angular.js
- Databases:** SQL, MariaDB
- Tools:** Git, ServiceNow, VS Code, Visual Studio Code
- Other:** Microservices, Responsive Design, C

PROFESSIONAL EXPERIENCE

Infosys (Senior Associate Consultant)

Jan 2025 - Present

- As a Senior Associate Consultant (UI Developer), I am responsible for designing and developing scalable, high-performance, and user-friendly web applications. My role involves collaborating with cross-functional teams to ensure seamless UI/UX experiences while implementing best coding practices and modern front-end technologies.

Criterion Technologies (Software Engineer)

Oct 2022 - Jan 2025

Medvantage

- Developed and maintained the front-end of a Blood Bank Service module for managing donor data, creating, tracking, and managing blood bags, enabling real-time inventory tracking and ensuring safety compliance.
- Developed a module to collect samples based on bill numbers, enabling users to perform, validate, and modify test values based on user roles; implemented functionality to generate radiology reports.
- Played a key role in securing ONC certification for Medvantage software by developing the front-end in compliance with FHIR and HL7 standards.
- Built reusable front-end components, improving codebase efficiency and scalability.
- Designed and implemented an intuitive inventory system for demand management, incorporating multi-level approval workflows and role-based access control.
- Technologies:** HTML5, CSS3, Bootstrap, JavaScript, React.js, MariaDB, .NET

HIS (Hospital Information System)

- Developed a module for assigning available ventilators to patients, recording patient status including NIV, intubation, and extubation.
- Integrated functionalities to log reasons for intubation and extubation, ensuring comprehensive patient records.
- Developed NABH forms that contributed to the hospital accreditation process, improving compliance and standardizing documentation.
- Designed and developed reporting functionalities to generate and manage medical reports.
- Technologies:** HTML5, CSS3, Bootstrap, JavaScript, React.js, SQL, .NET

Tata Consultancy Services (System Engineer)

Oct 2020 - Oct 2022

Cisco

- Collaborated with business analysts and stakeholders to gather requirements and implement custom scripts and business rules.
- Developed and optimized workflows, business rules, catalog client scripts, UI Policies, SLA, and service portal.
- Built forms on the ServiceNow service portal to enhance user experience and streamline processes.
- Provided end-user support, troubleshooting, and resolving issues related to ServiceNow applications.
- Technologies:** HTML5, CSS3, Bootstrap, JavaScript, React.js, ServiceNow scripting, Angular.js.

SIDE PROJECTS

Vision

- Developed an Arduino Mini-based system to detect objects one meter apart using ultraviolet rays, designed to assist blind individuals.
- Implemented alert features, providing users with beeps or vibrations upon object detection.

CERTIFICATIONS

- The Fundamentals of Digital Marketing
- Web Development Bootcamp by Dr. Angela Yu (Ongoing)

SKILLS & LANGUAGES

- **Soft Skills:** Communication, Collaboration, Leadership, Interpersonal Skills
- **Languages:** English (Fluent), Hindi (Fluent), Urdu (Intermediate)
- Volunteered at College Tech Fest and was Chief Coordinator for Spark IT Quiz
