- ❖ **BTech In Computer Science & engineering** | Sagar Group of Institute, Barabanki AKTU| Pursuing [4th year]

ACADEMIC PROJECTS:

- **Ace Dev Blog:** <https://github.com/AmanKtyr/Programming-Blog-with-CMS.git>
I've developed a **PHP**-based blogging website catering to programmers, enabling them to both read and publish blogs. It facilitates seamless interaction within the programming community.
- **Intern Hub:** <https://github.com/AmanKtyr/InternHubb.git>
This project, built on **.NET**, allows interns to apply for internships. It provides a platform for applicants to explore opportunities and submit their applications seamlessly.
- **Personal Portfolio:** <https://amanktyr.netlify.app/>
Personal portfolio project using **HTML**, **CSS**, and **JS** showcases skills, projects, and experiences succinctly for professional presentation.
- **The Perfume Planet:** <https://github.com/AmanKtyr/The-Perfume-Planet-.git>
Created an E-commerce website using **PHP** for selling perfumes, providing a seamless shopping experience for customers to explore and purchase a variety of fragrances.

Extra-curricular Activity: -

- published E-book (Space Math)
- I made a JWST model that NASA put on their website.
