

Kuldeep Yadav

Front-End Web Developer

8830122730 Kuldeep2804yadav@gmail.com linkedin.com/in/Kuldeep Yadav Mumbai, Maharashtra

SUMMARY

I am a Front-End Web Developer with a Bachelor's degree in Computer Science. I completed a one-month internship as a Web Developer at Prodigy Infotech, where I honed my skills in HTML, CSS, Tailwind CSS, JavaScript, React, Redux, and data structures/algorithms. I specialize in designing responsive, user-friendly web applications, and I am eager to contribute to innovative projects.

EXPERIENCE

Frontend Developer Intern

Charni Road, Mumbai

[F60 Local Host](#)

09/2024 - Present

F60 Local Host is a web development company specializing in modern frontend and backend solutions.

- Building and maintaining a Next.js application with React and CSS.
- Managing state using Redux Toolkit and handling API interactions with RTK Query.
- Collaborating with backend teams for seamless API integration.
- Optimizing performance, debugging, and implementing new features.

PROJECTS

EduMinds - Education Web App

09/2024 - 10/2024

An innovative educational web app that enhances learning experiences.

- Developed an educational web application allowing learners to explore courses and assess their learning level.
- Features an interactive questionnaire for self-assessment and a built-in Gemini AI chatbot for real-time doubt solving.
- Technologies Used: React.js, Tailwind CSS, HTML for the frontend; Node.js, Express, and SQL for the backend.

Expense Tracker

08/2024 - 08/2024

A web application for tracking expenses with real-time features.

- Developed a functional expense tracking web application with authentication and real-time updates.
- Includes Firebase authentication, email verification, expense management, dark mode, CSV download, and a user profile form.

Smart Canteen Web Application

01/2024 - 04/2024

An online canteen application facilitating food orders and secure payments.

- Developed an online food ordering web app using React, Node.js, Express, and Stripe for secure payments.
- Users can add items to the cart, modify orders, and process payments.
