OBJECTIVE

Frontend Developer with hands-on experience in building responsive and user-friendly web interfaces using React.js, HTML5, CSS3, and JavaScript. Passionate about clean UI design, performance optimization, and delivering seamless user experiences. Eager to contribute to a forward-thinking organization and continuously grow as a developer.

PROFESSIONAL EXPERIENCE

- Machine Learning Intern – InterCourse** Remote |  Feb 2025
Contributed to building machine learning models using Python, Pandas, and Scikit-learn, with hands-on experience in data preprocessing, model evaluation, and deployment. This internship also sparked an interest in integrating machine learning outputs with intuitive frontend user interfaces for enhanced user interaction.
- Frontend Developer Intern – Softpro India** Lucknow |  Feb 2024 – May 2024
Built and optimized UI components using HTML, CSS, and Bootstrap while focusing on responsive web design and layout enhancements. Collaborated effectively with the backend team and managed code versioning through GitHub to ensure seamless integration and development workflow.

PROJECTS

- MindMate – Mental Health Chatbot (Django, NLP, Python)**
Developed an AI-powered chatbot using Natural Language Processing and Django to assist users with emotional support, personalized suggestions, and access to mental health resources through intelligent and context-aware conversations.
[GitHub](#)
- Image Search App (React, Unsplash API)**
Developed a responsive image search application using React and integrated the Unsplash API to fetch and display high-resolution images based on user input. Implemented dynamic search functionality, responsive image grid layout, and loading states for smooth user experience.
[Live Site](#) | [GitHub](#)
- Personal Portfolio Website (React, CSS, Netlify)**
Designed and deployed a fully responsive personal portfolio website using React.js to showcase development projects. Incorporated engaging animations like Typewriter and Parallax Tilt effects, and structured the UI using modular React components for maintainability and performance.
