Skills

Forward-thinking Technical Product Manager with 10+ years of experience spanning **product management, quality assurance, automation, and release management**. Proven success in **translating complex business needs into clear functional requirements**, driving **cross-functional collaboration**, and leading **end-to-end product delivery**. Skilled in orchestrating development, QA, and business teams to ship impactful features at startup speed with enterprise precision.

Experience

MAY 2022 - PRESENT

OneStrive, Bengaluru - *Technical Product Manager*

- Spearheaded product delivery lifecycle, combining requirement gathering, functional documentation, design mock-ups, QA automation, and release management.
- Improved release velocity by **50%**, cutting manual QA time in half through automation with **Datadog**.
- Successfully shipped **three major features per quarter**, ensuring cross-functional alignment between **engineering, QA, sales, and customer success teams**.
- Facilitated **daily stand-ups, sprint retrospectives, and monthly roadmaps** to maintain delivery cadence and stakeholder visibility.

NOV 2021 - MAY 2022

Exly, Gurugram - *QA Lead*

- Established the company's first **QA automation suite using Datadog**, enabling faster regression testing and consistent deployment confidence.
- Standardized QA processes, reducing testing cycle time and improving post-release stability.

MAR 2019 - NOV 2021

CodeMaya, Lucknow - *QA Manager*

- Led a QA and release team of **8 members** in a startup environment, managing automation, test strategy, and product release for the company's flagship CRM product, **ProVarity**.

- Introduced automation frameworks and agile processes that reduced defect leakage and improved sprint predictability.
- Collaborated closely with the product team to refine backlog prioritization and enhance user experience quality.

MAY 2018 - MAR 2019

IBM India Pvt Ltd, Bengaluru - Sr. Test Specialist

- Owned end-to-end QA delivery as the **sole QA resource**, handling planning, execution, and client communication independently.
- Ensured **100% on-time delivery** across multiple release cycles with zero post-release critical defects.

JUN 2015 - MAY 2018

IBM India Pvt Ltd, Bengaluru - Sr. Test Specialist

- Delivered high-quality testing solutions using **HPQC** and **Jira**, maintaining rigorous defect tracking and reporting standards.
- Transitioned several modules from **manual testing to Selenium-based automation**, cutting regression time significantly.

Education

JUL 2011 - MAY 2015

University of Petroleum and Energy Studies, Dehradun - B.Tech
