

EDUCATION

•BTech (Bachelor of Technology)

Department Of Engineering & Technology, Kanpur

2018-22

CPI: 8.74

PERSONAL PROJECTS

•P2P Marketplace Application – Airbnb Clone

A web application, listing properties and homes for stay // MongoDB, Node.js, JavaScript, CSS, Ejs, Bootstrap

- Developed Airbnb clone with robust user authentication, authorization, and CRUD operations for listings.
- Implemented secure login/logout, profile management, and CRUD functionality to enhance user experience.
- Integrated real-time location tracking for properties, enabling users to discover stays through interactive maps.

•E-Commerce Shopping App

A react based web application that allow users to explore various options fo shopping // ReactJS, ContextAPI, TailwindCSS

- Utilized ReactJS, Context API for state management, and TailwindCSS for modern, mobile-first styling.
- Integrated features like product search, category filtering, and dynamic cart updates to enhance user shopping experience.

•Meteorological Application – Weather Widget

A Weather Widget to display real-time weather updates with a responsive interface // ReactJS, Vite, Bootstrap, Material- UI

- Designed weather app with real-time updates and location-based search functionality.
- Implemented interactive weather widgets for seamless weather information retrieval.

EXPERIENCE

•Web Development Internship

Tech Tribe

July - Sep 2023

Online

- Engineered a weather application with React.js, Bootstrap, and vanilla CSS, emphasizing responsive design and UI/UX principles.
- Collaborated in API integration and iterative enhancements, refining frontend development skills.
- Contributed to a user-centric interface, gaining proficiency in modern web technologies and problem-solving within a team environment.

•Spotify Clone Project - Freelancing

Online Freelancing Platform

Oct 2023 - Dec 2023

Online

- Built a responsive music streaming web app using React and Tailwind CSS, replicating core Spotify features.
- Fetched and displayed dynamic content by integrating a third-party API with GraphQL for efficient data handling.
- Delivered a smooth, user-friendly interface optimized for both desktop and mobile as part of a freelance project.

TECHNICAL SKILLS AND INTERESTS

Languages: Javascript, Java, HTML, CSS

Libraries : ReactJs, Redux, ExpressJS, Mongoose

Web Dev Tools: Nodejs, VScode, Git, Github

Frameworks: ReactJs, NextJS

Cloud/Databases: MySql, MongoDB, AWS, Azure

Relevant Coursework: Data Structures & Algorithms, Full Stack Web Development (MERN), Computer Networks, Operating Systems, Database Management System,

Areas of Interest: Software Design and Development, Web & Mobile App Development

Soft Skills: Problem Solving, Leadership, Communication, Adaptability

POSITIONS OF RESPONSIBILITY

•Event Coordinator – Science & Tech Fest UIET, CSJM UNIVERSITY, Kanpur

Oct - Dec 2021

- Led the organization and execution of the college's annual Science and Technology Fest, managing logistics, scheduling, and coordination.
- Successfully oversaw 100+ teams and engaged over 500 students, ensuring smooth operations and active participation throughout the event.
