Education

Indian Institute of Information Technology, Ranchi

Bachelor of Technology in Computer Science Engineering

August 2020 – May 2024

Ranchi, Jharkhand

CGPA: 9.05/10

Holy Cross School

Intermediate Education

June 2018 – March 2020

Madhepura, Bihar

Percentage: 90%

Experience

Brane Enterprises

June 2024 - Present

ASL(SDE-I)

Hyderabad, Telangana

- Built and tested APIs using Django and Django REST Framework, applying data structures and algorithms to optimize performance and ensure reliability before transferring them to the testing team for further validation.
- Created straightforward, reusable APIs to support internal teams in accessing components needed for client projects, while also verifying their performance and compliance with project requirements.

Projects

IOT SMART DUSTBIN | GitHub | Video

Python, Django, Django-Rest-framework, PostgreSQL, Railway

- Developed a Smart Dustbin IoT System with Django and PostgreSQL to monitor fill levels and streamline waste management, incorporating real-time push notifications for timely alerts.
- Engineered a secure API with token-based authentication to ensure data privacy and prevent unauthorized access.
- Addressed challenges in power efficiency and sensor calibration, delivering a reliable system adaptable to various environmental conditions.

CERTIFICATE GENERATION – WEB SERVICE | GitHub

Python, Flask, PILLOW, OS, Pandas

- Designed an API to automate certificate creation by merging templates with student data from CSV files, and streamlined distribution with immediate downloads and smooth frontend integration.
- Constructed a web service using Flask and Pillow for generating personalized certificates, integrating with Firebase for efficient user data management.
- Established a UUID-based ID system to ensure each certificate was unique and prevent duplicates..

Achievements & Ratings

- Directed a 3-member team in a 36-hour hackathon organized by IIIT Ranchi, successfully securing **2nd** place by effectively delegating tasks and driving team performance.
- Solved **1500+ problems** across different coding platforms. Secured a **global rank of 7** in GeeksForGeeks Weekly Contest.
- Leetcode: **Guardian (1941, roxxcode)** Codeforces: **Pupil (1250, roshan02code)**

Technical Skills

Programming Languages: Python, C++, C, JavaScript, PL/SQL, JAVA(Basics)

Computer Fundamentals: Operating system, Computer Networks, DBMS, OOPS, Software Engineering

Web Technologies: Django, Django-Rest-Framework, Flask, REST API, HTML, CSS, React.js, Tailwind CSS

Databases: MySQL, MongoDB, PostgreSQL
