**Authoring & CMS Skills:** Adobe Experience Manager (AEM) – Content Authoring, Templates & Components (Authoring), Digital Asset Management (DAM), Metadata & Tagging, Workflow Management, Localization & Translation (Live Copy)

**Backend/Platforms:** Node.js, Salesforce Lightning, Firebase

**Testing:** Salesforce Sales Cloud, Service Cloud, Sandbox, Jest (Unit Testing), End-to-End (E2E) Testing, UAT Testing

**Tools & Utilities:** Git, GitHub, Bitbucket, JIRA, Postman, Android Studio, Excel

**Cloud & Hosting:** AWS (EC2, S3), Firebase Hosting

**Operating Systems:** Linux/Unix, RedHat, Windows

**Soft Skills:** Communication, Teamwork, Leadership, Adaptability, Problem-Solving, Attention to Detail

## Education

---

**Lovely Professional University**, Jalandhar, Punjab, India

Aug 2020 – Jul 2023

B.Tech in Computer Science and Engineering

- CGPA: 7.97/10

**Lovely Professional University**, Jalandhar, Punjab, India

Aug 2018 – Jul 2020

Diploma in Computer Science and Engineering

- CGPA: 8.93/10

## Professional Experience

---

**Associate Software Engineer**, Carelon Global Solutions

Oct 2023 – Present

Salesforce QA Engineer

- Performed **functional and regression testing** on **Sales Cloud and Service Cloud modules**, including lead and opportunity management, quote generation, and case tracking.
- Executed **SIT, UAT, and E2E testing cycles**, ensuring compliance with business requirements and reducing defect leakage by **15%**.
- Validated Salesforce features against **business acceptance criteria**, designing and executing test cases for workflows such as lead conversion, account setup, and opportunity creation.
- Utilized **SOQL, SQL Developer, and Postman** for **data validation and API testing** across multiple integrated systems.
- Managed **test cases and defect tracking in Jira**, collaborating with developers and business analysts in **Agile sprints**.
- Conducted **integration testing for ETL processes and MuleSoft APIs**, verifying accurate data migration between Salesforce and external systems for payload modifications.
- Designed and executed **API validation for payloads**, ensuring correct field values were transmitted, improving data integrity and compliance.

Adobe Experience Manager (AEM) Content Author

- Created and managed digital content using **Adobe Experience Manager (AEM)**, ensuring brand consistency and responsive design.
- Built structured content pages using predefined templates and components for product and marketing material.
- Managed digital assets using **AEM DAM**, including uploading, tagging, and linking images, PDFs, and videos.
- Executed content publishing workflows with versioning, approvals, and rollout across environments.
- Applied metadata and tagging strategies to improve **SEO** and internal search.
- Maintained multi-site and multi-language content using Live Copy and translation workflows.

#### Dashboard Analyst

- Built an interactive **Excel dashboard** using Power Query, Pivot Tables, and Charts to track learning progress.
- Explore Projects Section in my Portfolio for the Dashboard

#### React Native Developer — CBHM Mobile App

- Developed a cross-platform mobile app for patient health management using **React Native** on **iOS** and **Android**.
- Implemented **Bottom Tabs Navigator** for multi-screen navigation and improved UX.
- Built custom forms with input validation to ensure accurate data capture and submission.
- Integrated external links using **React Native Linking API**.
- Created responsive UI components with **KeyboardAvoidingView**, **FlatList**, and **TouchableOpacity**.
- Managed state with React hooks including **useState** and **useEffect**.
- Styled components consistently using **StyleSheet**.

## Publications

### The Dark Side of Cloud Computing: Challenges and Preventions

May 2023

## Projects

### MovieVerse – A React.js Web Application

movieverse-482ad.web.app

**Source Code:** [github.com/vishwajeet1298/MovieVerse](https://github.com/vishwajeet1298/MovieVerse)

- Developed a responsive web application using React-query and React Router.
- Integrated TMDb API to fetch and display movie data.
- Implemented Firebase authentication.
- Used lazy loading to reduce initial load time by 30%.
- Ensured accessibility and hosted app on Firebase.
- Collaborated via Git for codebase management.

### Vehicle Rental Mobile Application

2020

**LinkedIn Post:** [Link](#)

- Developed a native Android vehicle rental app in Java with Firebase.
- Led a team and coordinated tasks for on-time delivery.
- Supported team members to achieve project goals.

## Certifications

- **React Native** – Udemy (View Certificate) Jan – Feb 2025
- **React & Redux** – CipherSchools (View Certificate) Jun – Jul 2022
- **Programming using C++** – CipherSchools (View Certificate) Jan – Feb 2022
- **Python (Basic)** – HackerRank (View Certificate) May 2021
- **Java (Basic)** – HackerRank (View Certificate) Jul 2021

## Languages

---

- **English** – Full Professional Proficiency
- **Hindi** – Native/Bilingual Proficiency
