Education

Gyan Ganga Institute of Technology
and Sciences
B.Tech , ECE Graduated with 8.47 CGPA
Completed in 2023

S.H.S School
Class XII Graduated with 80.01%
Completed in 2019

S.H.S School
Class X Graduated with 93.3%
Completed in 2017

Skills

- C Programming
- C++ Programming
- OOPs knowledge
- DBMS
- HTML CSS

Extra- Curricular Activities

Gyanotsav 2023 |

Cultural Co-Ordinator
in Gyan Ganga College

Hobbies

- Driving
- traveling

About Me

I can solve problems in creative ways. At Jabalpur GGITS, where I am completing my senior year in the College of Engineering, I have learned the importance of applying classical strategies to modern-day projects. A strong team player with excellent collaboration skills and a commitment to maximizing the production process within a facility.

Personal Projects

[DIY Arduino Height Measuring Machine \(06/2022 - 12/2022\)](#)

To find out your height all you have to do stand under the device and activate a sound that indicates that your height has been measured. The device will be installed at a certain height when anyone stand under the device this device will measure the height of the person by subtracting the distance between the device and the person under it from the height at which the device is installed. We will be using the ultrasonic sensor to measure the height.

Internship

[Cisco Networking Academy \(01/2021 - 06/2021\)](#)

Cyber Security Virtual Internship Program 2021 Knowledge of Cyber Security and type of cyber attacks.

Malware — or malicious software — is any program or code that is created with the intent to do harm to a computer, network or server. Malware is the most common type of cyberattack.

Phishing — is a type of cyberattack that uses email, SMS, phone, social media, and social engineering techniques to entice a victim to share sensitive information such as passwords or account numbers or to download a malicious file that will install viruses on their computer or phone.

Courses

- CPA Programming essential in C
- Introduction to Cybersecurity
- IoT fundamental Big data & Analytics
