ABOUT

Final-year MCA student with a 9.7 CGPA, skilled in Python, SQL, and data analysis, with expertise in data structures, algorithms, and software development. Proficient in frameworks like Django and tools such as Power BI and MongoDB. Seeking to apply technical skills in data-driven and innovative projects.

EDUCATION

Integral University, Lucknow

Master of Computer Applications - CGPA - 9.7

2023 – 2025

Lucknow, UP

Shree Jai Narain PG College, Lucknow

Bachelor of Mathematics

2019-2023

Lucknow, UP

COURSEWORK / SKILLS

- DSA
- Operating Systems
- Oops Concepts
- Computer Networks
- Data Science
- Software Engineering
- DBMS
- Mathematics Statistics

PROJECTS

Credit Card Default Prediction System | Python, Machine Learning, Database - MySQL, IDE-VS Code

- Built a predictive machine learning model to evaluate the likelihood of credit card default, analyzing over 10,000 historical financial records to enhance risk assessment.
- Applied advanced data preprocessing and feature engineering techniques, improving model accuracy by 20%.
- Designed an intuitive interface for data visualization, allowing users to analyze trends and prediction results
- Achieved an accuracy of 84% using optimized machine learning algorithms, ensuring reliable predictions.

Interview Creation Portal | React, JavaScript, Database - sqlite3(development), IDE - VS Code

- Designed and developed a dynamic interview scheduling portal, enabling administrators to create interviews by selecting participants and specifying time slots, improving scheduling efficiency by 30%.
- Implemented an interviews list page where admin can see all the upcoming interviews.
- An interview edit page where admin can edit the created interview with the same validations as on the creation page.

Sentiment Analysis System - | HTML, CSS, React, PostgreSQL

2021-22

- Built a system to **analyze and classify** customer reviews into positive, negative and neutral sentiments .
- Applied advanced NLP techniques such as tokenization, stemming, and stop-word removal to preprocess data, improving model accuracy by 25%.
- Implemented a **dashboard to visualize** sentiment trends and insights for data-driven **decision-making**.
- Achieved an accuracy of 87%, providing businesses with actionable insights to improve customer satisfaction.

TECHNICAL SKILLS

Languages: Python, C, SQL

Technologies/Frameworks: HTML5, CSS3, MongoDB, Django, PowerBI, Pandas

Developer Tools: VS Code, PyCharm, IntelliJ, Github, Jupyter Notebook

Soft Skills: Leadership, Time Management , Analytical Thinking, Event Management

CERTIFICATIONS

- Machine Learning Certification - Coursera
- Data Science- Ineuron

EXTRACURRICULAR

- Taught basic Python/DSA in offline Mode. 02-2024 – 05-2024
- Electronic Quiz Runnerup
- Mind Quest Winner
- Third Rank in Mathematics Olympiads District Level
