EDUCATION

Degree	Institute	Board / University	CGPA/Percentage	Year
B.Tech CSE	Goel Institute of Technology and Management ,Lucknow	AKTU	7.26(Till 5th Sem)	2021-2025
Senior Secondary	Hindustan Aeronautics Limited	CBSE	72.6%	2021
Matriculation	Hindustan Aeronautics Limited	CBSE	75.2 %	2019

INTERNSHIP

- DevSecOps Softwares Private Limited

I worked on a project focused on automating the creation of infrastructure as code. This allowed me to gain extensive hands-on experience with Linux, AWS, and Terraform. I was responsible for creating and testing Terraform modules, ensuring that the cloud infrastructure was both efficient and scalable. I collaborated closely with cross-functional teams to integrate infrastructure changes into the development workflow. During this time, I also worked with various AWS services, including Amazon S3, IAM, Virtual Private Cloud (VPC), and EC2, and automated their creation using Terraform.

PROJECTS

- Weather App

A weather application offering real-time temperature updates for user-specified locations

GitHub

- * Developed a user-friendly interface utilizing HTML, CSS, and JavaScript, allowing users to input their desired city and promptly receive accurate temperature updates
- * Integrated the OpenWeather API to seamlessly fetch and display current temperature data, ensuring reliability and precision in weather information retrieval

- Study Sync

Frontend for a website of online study platform

GitHub

- * Developed a dynamic frontend website featuring a testimonial section for user feedback, a sign-in module for receiving latest updates via email subscription, and a customer reviews section for enhancing credibility and engagement.
- * Implemented a navigation bar offering seamless navigation to key sections like home, features, pricing, blog, and about, alongside direct links for users to connect on social media platforms such as Twitter, Instagram, and LinkedIn, optimizing user interaction and brand visibility.

- Blog Website

Place for interesting blogs

GitHub

- * Crafted a visually appealing static blog website using HTML and CSS, showcasing engaging content in a structured layout for optimal readability and user experience.
- * Implemented dynamic functionality with JavaScript to enable seamless toggling between light and dark modes, enhancing user accessibility and customization preferences.

TECHNICAL SKILLS

Programming Languages: Python, C, Javascript.

Tools and Frameworks: Visual Studio, Git/GitHub, Postman, Terraform, Red Hat Enterprise Linux, Ubuntu, Centos, Putty.

Libraries and Frameworks: React, Flask

Cloud/Databases: Amazon Web Services, MySQL.

Soft Skills: Teamwork, Adaptability, Problem-Solving, Time Management, Self-Motivation.

Coursework: Object Oriented Programming, Operating System, Database Management System, Web Development, Data Structures and Algorithms.

Areas of Interest: Software Development, DevOps, Cloud Engineering, Problem Solving.

CERTIFICATIONS

- DevMind 1.0 quiz Goel institute of technology and management

ACHIEVEMENTS

- **Achievement 1**,4 star in C Language at HackerRank 2022
- **Achievement 2**,Got 3rd Rank in devMind 1.0 quiz competition on C programming 2021
