Detail-oriented Electrical Engineer with 1 year of experience in technical support at SLMG Beverages, now pivoting into the IT sector with a strong foundation in HTML, CSS, JavaScript, and Java. Passionate about problem-solving and building efficient digital solutions, seeking an entry-level developer role to apply my technical background and newly acquired coding skills in a dynamic software development environment.

Experience

SLMG BEVERAGES PVT. LTD., LUCKNOW **SEPT. 2024 – PRESENT**

Provided technical support for electrical systems and machinery across production units, ensuring minimal downtime and efficient troubleshooting. Collaborated with cross-functional teams to resolve hardware and software issues, gaining exposure to system-level diagnostics and IT infrastructure. Developed strong problem-solving and communication skills while working in fast-paced, high-pressure environments.

STERLING & WILSON LTD., NEW DELHI **AUG 2023- OCT. 2023**

Supported the engineering team in preparing technical documentation, including single-line diagrams, BOMs, and system specifications. Conducted site feasibility analysis based on shadow studies, tilt angles, and orientation to maximize solar efficiency. Collaborated with senior engineers to evaluate structural and electrical parameters for safe and efficient system integration. Gained hands-on exposure to renewable energy project workflows, from conceptual design to client presentations.

Skills

MS Excel • Power Point • HTML5, CSS3 • JavaScript • Java

Education

2020-2024

B.tech in Electrical Engineering from University of Lucknow, Lucknow

Activities

• Swimming • Trekking • Travel • Typing
