PROFESSIONAL EXPERIENCE

HOMZNOFFIZ Ltd.

Full Stack Developer Intern | May 2023 - Present

- My responsibilities are developing reacting user interface using javascript, react, tailwind CSS, and integrating it with the backend.
- Developed responsive user interfaces using JavaScript, React.js, and Tailwind CSS.
- Integrated the frontend with the backend and designed the database structure
- Implemented reusable and scalable React components to enhance code maintainability and reusability
- Utilized Redux for state management and React Router for client-side routing.
- Integrated third-party APIs and libraries to enhance application functionality.
- Conducted performance optimization and improved application load times.
- Implemented form validation and data handling techniques for data integrity and user experience.
- Collaborated with the development team for requirements gathering and interface design.

ACADEMIC PROJECTS

E-Commerce Web Application

- Developed a responsive web application using MERN stack (MongoDB, Express.js, React.js, Node.js) technology.
- Utilized React.js for the frontend and MongoDB for the database.
- Achieved an interactive user interface with multiple web pages for seamless navigation.

Movie Rating Web Application

- Technologies used MongoDB, Express JS, React JS, Node JS
- In this Website you can give your review and ratings for any movie
- It contains animation and skeleton loading technique
- It also contains trailers , news and updates , user review and recommendations and many more other sections
