WORK EXPERIENCE

- **Treleva Technologies** Pune, India
Frontend Developer Oct 2023 – Dec 2024
 - Built responsive web applications using **React.js**, **JavaScript**, and **Tailwind CSS**.
 - Integrated **REST APIs** and improved UI/UX performance, reducing page load time by **25%**.
 - Collaborated in Agile sprints, contributing to code reviews and version control with **Git/GitHub**.
- **Faculty Path (Academic Project)** Kanpur, India
Backend Developer Jan 2025 – Present
 - Developed secure **REST APIs** using **Node.js** and **Express.js**.
 - Implemented **MongoDB** with authentication (**JWT**, **bcrypt**), reducing API response time by **30%**.
 - Ensured smooth integration with frontend team for end-to-end delivery.

EDUCATION

- **Axis Institute of Technology, Kanpur** Kanpur, UP
B.Tech. in CSAIML / CGPA: 8.7 2021 – 2025
- **ST. Jude's College (ICSE), Unnao** Unnao, UP
Intermediate / 78.05% 2019 – 2020

PROJECTS

- **Revolt Chatbot (Conversational AI)** May 2025 - Aug 2025
AI Voice Assistant / Gemini + WebSockets
 - Engineered a real-time AI chatbot replicating Revolt Motors' voice assistant using Gemini API, WebSockets, and Node.js.
 - Integrated speech-to-text and text-to-speech pipelines enabling seamless human–AI conversations.
 - Optimized chatbot latency and deployed a scalable solution for improved user experience.
- **Alpha Angels – Stray Dog Welfare Platform** Apr 2024 – Apr 2025
MERN Stack / NGO Project
 - Built a full-stack platform to manage stray animal rescue operations including trapping, sterilization, medical care, and release.
 - Implemented real-time status updates and an NGO dashboard for data-driven decision-making.
 - Integrated rescue reporting, veterinary collaboration, and mobile-first responsive UI to enhance operational efficiency and transparency.
- **Realtime Tracking System** Jan 2024 – Mar 2024
MERN Stack / GPS + API Integration
 - Developed a real-time asset tracking system with GPS and REST API integration.
 - Reduced response time by 40% and improved operational efficiency through seamless software integration.

TECHNICAL SKILLS

- **Programming & Frameworks:** JavaScript, C/C++, Python (Basic), React.js, Node.js, Express.js
- **Databases:** MongoDB, MySQL, Vector Databases
- **AI/ML Tools:** Generative AI, Large Language Models (LLMs), Chatbots, AI Agents, RAG
- **Developer Tools:** Cursor IDE, Git, GitHub, Docker, Postman

CERTIFICATIONS

- Front End Development – Great Learning Academy, Treleva Technologies
- AWS Graduate with 5 star and Badges – AWS Academy
- Open EDG JS Institute – Certified Entry-Level Web Developer
