Kendo UI :	Grid,Data-binding, Filtering,Grouping,Grid paging>manual paging,Grid API, Navigation etc
Material UI:	It is use in Angular for UI Design

EXPERIENCE

Software Engineer	Aug 2023 - Oct 2023
Opkey	Noida, UP

- Successfully implemented single-line and license management features in the QLM (Quality License Management) project using Angular and Kendo UI.
- Executed API calls within the project, demonstrating proficiency in integrating external services and ensuring seamless data flow. .
- Conducted CRUD (Create, Read, Update, Delete) operations, contributing to the overall functionality and user experience of the application.
- Implemented routing mechanisms, ensuring smooth navigation and a user-friendly experience for application users.

PROJECTS

TODO App : 1.To-do List enables users to create multiple To-do list to manage their day-to-day tasks
2.Includes features like create, delete, minimization, add TODO list Implemented an Add (+) symbol to open a dialog box
3.Technologies used: HTML5, CSS3, JavaScript that includes a title and a description part.

Restaurant Website:1.A restaurant website must use the right combination of colors to make food and drinks look more appealing to customers. You can also make the website interactive to increase customer engagement. For example, hovering over a meal's image can display a menu card containing the price and availability.
2.This project provides an opportunity to challenge your layout skills. For instance, you can use image sliders to showcase the restaurant's menu options. Alternatively, you can use CSS grid or flexbox to align the food items. Simple animations on buttons and images can also give your website an exciting look
3.Technologies used: HTML and CSS

GoFree.com Technologies used are HTML,CSS,JavaScript. Have features like booking travel ticket, stay and many more.

COLOR GAME. Web Application made using HTML, CSS, Bootstrap for frontend. A game to get preview of the colors used using rgb notation in frontend Developing.

EXTRA-CURRICULAR ACTIVITIE

- Neural Hackathon (Neural Hackathon hosted by virtusa- participated).
- Hacker rank coding contest(<https://www.hackerrank.com/shashanksikta>)

CERTIFICATION

- Java certificate by nptel

FRAMWORKS

- Tools: Visual studio Code
- Eclipse
