

VISHNU GUPTA

Aspiring Software Developer | MERN Stack Developer

- vishnugupta0611@gmail.com
- vishnugupta.vercel.app
- +91 9984204758
- Kanpur, India

SUMMARY

I’m a motivated **Software Developer** with hands-on experience in **full-stack development using the MERN stack (MongoDB, Express.js, React.js, Node.js)**. I specialize in building **scalable, high-performance web applications**, implementing **RESTful APIs**, and integrating **third-party services**. With strong **problem-solving, debugging, and collaboration skills** in **Agile/Scrum environments**, I bring both technical expertise and a growth mindset. Passionate about **database management, API design**, and I have participated in **multiple tech events**.

EDUCATION

High School (10th, 2021) & Intermediate (12th, Science Stream, 2023)

Saraswati Vidya Mandir Inter College

Bachelor of Computer Applications (BCA) | Aug 2023 – Present

Kanpur Institute of Technology

CORE COMPETENCIES

Data Structure

Design efficient solutions and optimize code performance using C++ and problem-solving techniques.

Leadership Skills

Conducted a hackathon with 500+ participants, managing logistics, coordination, and team operations.

Creative Problem Solver

Generate innovative ideas that address real-world problems, designing **practical and optimized solutions** for projects.

Quick Learner

Adapt rapidly to new **frameworks, libraries, tools, and technologies**, quickly applying knowledge to solve real-world problems.

Team Collaboration

Effectively work with diverse teams in **Agile/Scrum environments**, ensuring clear **communication and project execution**.

ACHIEVEMENTS

Runner-up – Allen Multi-College Hackathon

Developed an interactive **3D Virtual Herbal Garden** using MERN, ranked among **top teams out of 100+** participants.

HackHazard Hackathon

Built a **creative tech solution** under **time-constrained conditions**, demonstrating **teamwork and problem-solving skills**.

Full-Stack Training – RCPL

Completed **full-stack web development training**, gaining hands-on experience in **frontend development, backend development and database management**.

Employability Enhancement Training

Centum Foundation — Completed training to enhance professional skills and workplace readiness, gaining valuable practical insights.

SKILLS

Frontend

HTML5, CSS3, JavaScript, React.js, Redux, Context API, Tailwind CSS, GSAP, Responsive Design

Backend

Node.js, Express.js, MongoDB, RESTful APIs, WebSockets, WebRTC, JWT Authentication, OAuth 2.0

Programming & Data Structures

C, C++

Tools & Platforms

Git, GitHub, Postman, Fiddler, Redis, NPM, Axios, Cloudinary, Razorpay Integration, Vercel, Netlify, Render, Hostinger

PROJECTS

APIHub – Developer API Platform ([apihub.digital](#))

Built a **full-stack developer platform** for exploring and using public APIs with authentication and API key generation, using **React.js, Node.js, Express.js, Redis, Razorpay, Google OAuth, and GitHub OAuth**.

Provides **dummy APIs** including e-commerce products, jokes, weather, and more.

Developed **API Media** section for developers to post and share APIs (like Instagram posts) with optimized pagination using Intersection Observer API.

Implemented **dynamic API generation** allowing users to create live endpoints from JSON or selected fields using Faker.js.

Over **1,000 active users**, demonstrating real-world adoption and engagement.

PDF Fixer — AI-Powered Tool

Developed an AI-based application to automatically solve MCQ-based PDFs.

Users can upload a PDF, and the app analyzes questions, selects correct answers, and generates a solved PDF with answers marked.

Streamlines quick validation and learning, demonstrating practical AI integration.

3D Virtual Herbal Garden — Hackathon Hackathon Runner-up

Developed an interactive 3D herbal plant app using Three.js.

Created an engaging virtual environment showcasing various herbal plants.

Secured **Runner-up position** at Allen Hackathon among 30+ teams.

LANGUAGES

Hindi (Native), English (Intermediate)
