SUMMARY

A skilled web developer with a passion for crafting dynamic and user-friendly websites, I have a proven track record as a front-end developer at Media Captains. Proficient in a variety of programming languages and technologies, I am adept at designing and implementing responsive web interfaces. I am detail-oriented, a creative problem solver, and committed to staying current with industry trends and best practices. My dedication is to creating seamless online experiences that meet user needs and drive engagement.

EXPERIENCE

Web Developer Media Captains

Jul 2023 - Oct 2023, Noida, India

- Worked with the team of 6 frontend developer designed and developed engaging and user-friendly front-end interfaces for websites, ensuring a seamless and visually appealing user experience.
- Spearheaded the implementation of responsive web design, resulting in a 30% increase in mobile conversions, 20% decrease in page load time, and improved user experience across multiple platforms, driving a 15% growth in overall online revenue.
- Fixed 2 major bugs, incrementing 40% overall traffic and 15% increase in average engagement time.
- With my team, we made overall UI changes about 60%
- Stayed current with industry trends and emerging technologies to continuously improve front-end development practices and incorporate best practices into projects.

PROJECTS

E-commerce Dashboard

- Built a E-Commerce Dashboard.
- Use React.js and Bootstrap for front-end development, providing seamless user experience & optimized performance
- Based on the MERN stack Using Express.js, Node.js, MongoDB.
- Learn the concept of the backend like middleware, controller, model etc.

Shopping Cart website

<https://shopping-cart-b2b56.web.app/>

- Created a website using js framework React.js and learn the concept of state management.
- Learn the concepts like useState, useEffect, useContext, context API, API management and more.

Weather App

<https://weather-app-6a3.web.app/>

- Developed a weather application using React.js and integrated it with a weather API.
- I gained a deep understanding of making API calls and effectively utilizing data through the process of deconstructing API responses.

TypeTest

<https://github.com/imAnkit7/Typetest>

- Developed Typetest, a tool that informs you about your typing speed using HTML5 CSS and JavaScript
- Acquire familiarity with different JavaScript concepts such as the slice method, new Date(), and more.

EDUCATION

Bachelor of Computer Application

Integral University • Lucknow Uttar Pradesh • 2023

- Took part in collegiate cricket and volleyball competitions.

Intermediate

Purvanchal Public School • KAURIRAM, GORAKHPUR UTTAR PRADESH • 2020

SKILLS

Figma, Problem solving, User Experience Design, HTML, CSS, JavaScript, React.js, Node.js, Express.js, Bootstrap, Back-End and Database Skills
