PROFESSIONAL SUMMARY

"Versatile and accomplished Automation Developer with 3.6 years of extensive experience in architecting and executing automated solutions. Demonstrated success in creating resilient automation frameworks and scripts, refining processes, and driving software excellence. Proficient in employing a wide array of tools and technologies to achieve comprehensive test coverage across various applications. Enthusiastic about applying my expertise in a dynamic organization to enhance efficiency, elevate product quality, and contribute to the delivery of superior software solutions."

SKILLS

- Familiarity with Selenium, Functional Testing, Regression Testing, RPA Testing, Manual Testing, Automated Testing, UAT Testing, Integration Testing, and API Testing.
- Version Control Systems: Skilled in using GIT and GitLab for continuous integration and continuous deployment (CI/CD) processes.
- Implemented Behavior-Driven Development (BDD), Test-Driven Development (TDD), Software Design Description (SDD), Agile Methodology, and Scrum Framework methodologies within testing protocols.
- Proficiency with testing tools including JIRA, Confluence, Zephyr, and Neo tools to optimize testing workflows.
- Expertise in Odoo, CRM, GetProspect, mobile testing, and Android testing tools to optimize and streamline testing processes.
- Engaged in and gained valuable experience within the BFSI domain, healthcare, e-commerce, and banking sectors.
- Proficient in programming with Java, C, C++, and possessing foundational understanding of HTML, CSS, JavaScript, and Bootstrap.
- Contributed to web design initiatives encompassing PHP, HTML, SQL, WordPress, and the integration of Chabot's.
- Orchestrated activities in both Software Testing Life Cycle (STLC) and Software Development Life Cycle (SDLC), including test planning, test case development, test case result and bug reporting, and ensuring the quality assurance of test documentation.
- Automated Testing Tools: Proficient in utilizing Selenium and Robot Framework for test automation.

WORK HISTORY

the DOLO online platform at Diner Daddy, enhancing test automation efficiency and reliability.

- Conducted mobile and tablet testing for Android applications, ensuring cross-device compatibility and performance.
- Managed marketing components such as CRM and lead generation systems to streamline client acquisition and engagement.
- Tested the POS application, including card reader functionality and various payment types, ensuring seamless transaction processes.
- Successfully built resilient automation frameworks, optimized testing processes, and consistently enhanced software quality.
- Skilled in utilizing diverse tools and technologies to ensure thorough coverage across multiple applications.

**Automation Developer
at Tech Concierge Pro
(Bangalore)
[June 2024 - Current]**

***Diner Daddy -
Automation
Developer***

- Developed and executed comprehensive functional and non-functional test cases, covering end-to-end testing scenarios.
- Set up Selenium tools and established a testing framework for

Test Engineer Analyst Accenture (Bangalore) [Oct 2021 - May2022]

My Health Record – Test Engineer Analyst

- Oversaw the setup of Selenium tools from the beginning, including configuring various peripheral tools to support Selenium testing.
- Created and implemented automated scripts for Functional, Regression, Sanity, and Integration testing utilizing Selenium.
- Developed the test scripts and analyzed the results in various stages of the application including Integration, Regression, Functional.
- Recognized and documented defects using JIRA and Zephyr.
- Consistently maintained code in GitHub to ensure code preservation, implement quality improvements, and document overall test strategy for each program.
- Acquired proficiency in Accessibility Testing.
- Reviewed testing outcomes to identify, troubleshoot, and promptly resolve technical issues, ensuring product quality.

Associate Software Engineer

Tech Mahindra (Hyderabad)

[Feb 2019-Oct 2021]

Scotia Bank- QA Engineer

- Executed Automation Testing and PEGA RPA, utilized JIRA BOARD and CDS-ATON, and managed Investment Transfers as part of a new project, acquiring expertise in automated tasks through BOTS.
- Created test cases encompassing diverse scenarios for RPA automation and manual testing.
- Effectively oversaw projects from proposal through execution to certification and software delivery, averaging 16 user stories per sprint and achieving a 20% increase in project efficiency.
- Provided guidance on software development life cycle (SDLC) best practices to two junior team members.
- Experience in the software development life cycle (SDLC), collaborating closely with developers in an Agile development environment.
- Utilized Jira for managing test cases, tracking user stories, and reporting bugs, ensuring compliance with BDD, TDD, and SDD methodologies.
- Managed testing for diverse business rules related to claims processing, validation, and conversion, while also coordinating end-to-end workflow testing across multiple automated platforms.
- Conducted User Acceptance Testing (UAT) to ensure adherence to requirements before deploying changes or submitting to clients.

OTHER PROJECT

PAST FULL STACK PROJECTS COMPLETED:

- Built a Website for a coaching institute – <https://www.spanisheminence.com>
- Built a Single Vendor ecommerce website using Word Press – <https://www.craftvilla.shop>
- Built a website with nodejs, JavaScript, bootstrap – <https://www.anwmark.com>

EDUCATION

Unified Course involving Development and Testing Technologies from ABC for Technology Training, Bengaluru. **2018**

Bachelor of Technology in Electronics & Telecomm. Engineering from KIIT University (63%) **2014-2018**

AWARDS

“Pat on back” – June 2019 (By Tech Mahindra)

“QAT Ninja” – May 2019 (By Tech Mahindra)

SOFT SKILLS

- Good managerial skills and leadership qualities.
- Ability to work in teams with coordination and cooperation, under high pressure and demanding situations.
- Excellent presentation and communication skills.

HOBBIES

Passionate about coding and expanding technical skills, watching inspirational videos, engaging in creative activities like dancing, singing, and playing the piano. Enjoys playing badminton, watching inspirational TV series and movies, and networking to enhance communication abilities.
