Objective

Results-driven Software Engineer with 1 year of experience in software development, data architecture, security implementation, and performance optimization. Skilled in coding, testing, and debugging. Eager to leverage technical expertise and problem-solving skills to contribute to innovative software solutions in a dynamic development team

Education

Master of Computer Application (2020 - 2023)
Bachelor of Computer Application (2017 - 2020)

Madan Mohan Malaviya University, Gorakhpur
Swami Vivekanand Subharti University, Meerut

Technical Skills

Languages: C#, .Net Core & MVC , Java, Python, C/C++, HTML/CSS, JavaScript, Microsoft SQL Server.

Developer Tools: Visual Studio, VS Code, Eclipse, IntelliJ IDEA, PyCharm.

Technologies/Frameworks: Data Structure, DBMS, STL, Collection.

Experience

StreamLine MoneySofttech — .Net Developer

- Developed and maintained multiple ASP.NET Core MVC and Web API controllers for a UPI Management System, improving financial reporting, customer management, and loan operations, resulting in a 25% reduction in manual processing time.
- Contributed to data architecture design, optimizing database interactions and enhancing scalability, which led to a 20% increase in system performance and reduced latency
- Implemented security features such as dual authentication (Google Authenticator), role-based access control, and data encryption using MailKit, strengthening security and reducing security incidents by 15%.
- Utilized Dependency Injection, AutoMapper, and asynchronous programming to optimize system performance, ensure smooth data flow, and enhance code maintainability, resulting in a 30% reduction in technical debt.
- Led testing efforts using Postman and Swagger, validating API functionality and ensuring system integrity, which improved overall API reliability and reduced production errors by 10%

NICS Technology — Software Engineer Intern

- Completed internship as a Software Engineer Trainee, gaining practical experience in the full software development lifecycle, including coding, testing, and debugging.
- Collaborated with team members to enhance application performance and streamline development processes.
- Gained hands-on experience with various programming languages, frameworks, and software development methodologies, honing technical skills.
- Participated in training sessions and projects, improving problem-solving abilities and contributing to team goals

MINDLABZ MEDIA TECH PVT LTD— WEB DEVELOPER INTERN

- Built interactive web applications using HTML, CSS, and JavaScript, improving functionality and user experience.
- Fixed bugs and optimized performance to ensure smooth operation across different devices and platforms.
- Worked closely with teams to meet deadlines, follow coding standards, and deliver quality results.
- Contributed to code reviews by sharing feedback and introducing ideas to enhance projects.
- Learned and applied modern web tools and frameworks, aligning with industry best practices to deliver impactful solutions.

Achievements

- Secured **1st place** in the aptitude competition at Madan Mohan Malaviya University of Technology, outperforming **300+ participants** and showcasing strong quantitative skills (2022).
