

I am a **Frontend Developer** with an MCA Degree from Dr. Ram Manohar Lohia Avadh University, Ayodhya. Skilled in HTML, CSS, JavaScript, and SQL, I specialize in creating responsive, user-friendly, and visually appealing interfaces. I'm passionate about transforming ideas into functional designs and continuously learning new tools to deliver impactful solutions.

Technical Skills:

- **Web Development:** HTML, CSS, JavaScript, Bootstrap
- **Programming Languages:** C#
- **Database Management:** Microsoft SQL Server (MSSQL)
- **Design Tools:** Canva, Microsoft Word
- **Development & Collaboration Tools:** GitHub, Visual Studio, Visual Studio Code

Soft Skills: Problem-solving, teamwork, time management, innovation, adaptability, and a strong willingness to learn.

PROJECTS:

Login and Registration System

- **Technologies Used:** HTML, CSS, JavaScript, SQL
- **Description:** Developed a responsive login and registration system with front-end validation and database integration for secure data storage.
- **Key Features:**
 - **Login Form:** Intuitive interface with client-side validation using JavaScript, integrated with SQL for user authentication.
 - **Registration Form:** Responsive design with dynamic field validation, storing user details securely in the SQL database.
 - Real-time error handling for invalid inputs and duplicate entries.
 - Modern UI styled with CSS, ensuring a user-friendly experience across devices.
