SKILLS SUMMARY

- **Language** : JavaScript,TypeScript,PHP,Python
- **Frameworks/Libraries**: NextJs, NodeJs, ExpressJs, ReactJs, TailwindCSS, Framer Motion, Django, Prisma
- **Tools**: VS Code, Git, GitHub, Postman, Prettier, ESLint, Thunder Client, React DevTools
- **Platforms**: Vercel, Netlify, Render, Firebase, Cloudinary, GitHub, RapidAPI
- **Database**: MongoDB, PostgreSQL, MySQL, Redis
- **Soft Skills**: Problem-Solving, Team Collaboration, Communication Skills, Time Management Adaptability, Creativity, Self-Motivation

Experience

Ekdenar Pvt. Ltd. | july 2025 – Present

Role – *Frontend Developer Intern*

- Built and optimized **responsive web interfaces** using **React.js** and **Tailwind CSS**, ensuring pixel-perfect implementation from **Figma designs**.
- Integrated REST APIs and managed state effectively to deliver smooth user experiences.
- Gained backend exposure by implementing **Redis caching** and working with **PostgreSQL** to enhance performance and scalability.
- Collaborated with senior developers in an **agile team environment**, following best coding practices and version control with Git.

PROJECTS

AI Resume Shortlisting System | [LINK](#)

March 25 – March 25

A web platform that helps HR professionals shortlist resumes by comparing them with job descriptions using AI.

Tech Stack: React, Tailwind, Redux Toolkit, Node.js, Express, MongoDB, TypeScript, Piscina, Multer, Cloudinary, Gemini API

- Integrated **Gemini API** to intelligently analyze resumes against job descriptions and generate a relevance match score using natural language processing
- Utilized **Piscina** to implement multi-threaded processing, enabling fast and efficient handling of multiple resume files simultaneously
- Developed a **secure file upload system** with file size validation using Multer, and stored files reliably on Cloudinary cloud storage
- Built a complete **authentication and role-based access system**, allowing HRs to review, reject, or shortlist candidates through a protected dashboard

Thread Clone | [LINK](#)

April 25 – April 25

A social media web app inspired by Threads, enabling users to share posts, interact, and connect in real time.

Tech Stack: React, Tailwind CSS, Redux Toolkit, TanStack Query, Node.js, Express, MongoDB, Multer, Cloudinary

- Built a **full-stack post-sharing platform** where users can upload photos/videos, write text posts, and engage via likes, comments, and reposts
- Implemented **follow/unfollow functionality** to let users build their own network and see posts from those they follow
- Integrated **Cloudinary** for efficient media uploads, and used Multer for secure handling of photo and video files on the server
- Leveraged **TanStack Query and Redux Toolkit** to manage asynchronous data fetching, caching, and global UI state efficiently

EDUCATION

MCRP University

Bachelor in Computer Application | GPA : 7.8

Bhopal, India

June 2022 – June – 2025

ACHIEVEMENTS

Freelance Project: IndieTrip – Travel Website

- Delivered a freelance project (IndieTrip – Travel Web App) independently, showcasing real-world development, client interaction, and timely deployment.
- Built end-to-end functionality including image upload, custom UI components, and smooth user navigation.
