SUMMARY

I am an MCA student specializing in web development and full-stack technologies, proficient in JavaScript, React.js, Node.js, and MongoDB. With hands-on experience in creating responsive applications and integrating APIs, I'm passionate about transforming innovative ideas into scalable solutions. I am looking forward to enhancing my technical skills and contributing to impactful projects as a software developer.

EXPERIENCE

Frontend Developer

SparrowHost

- 📅 06/2025 - Present 📍 Dhanbad
- Collaborated on improving UI design and user experience for the Simpuphish project using Next.js and ShadCN UI.
 - Utilized Git and GitHub for effective version control and seamless collaboration within cross-functional teams.

Technical Assistant

Hybrowlabs Technology

- 📅 03/2025 - 06/2025 📍 Pune, India
- Fixed bugs and implemented new features across both frontend and backend layers using JavaScript and Python within the Frappe framework.
 - Performed UI/UX enhancements, ensuring better user experience and interface consistency.
 - Collaborated with the development team to identify issues, streamline workflows, and improve application performance.

EDUCATION

Master of Computer Application (MCA)

Lakshmi Narayan College of Technology

📅 07/2023 - 05/2025 📍 Bhopal

GPA
8.79 / 10

Bachelor of Computer Application (BCA)

Tej Narayan Banaili College

📅 06/2019 - 06/2022 📍 Bhagalpur

GPA
7.79 / 10

KEY ACHIEVEMENTS

Hacktoberfest Achievements

Successfully completed Hacktoberfest 2023 and 2024, contributing to multiple open source projects

GitHub Contributions

Made 1500+ commits on Github in 2023 showcasing consistent contributions to software development

COURSES & CERTIFICATES

Java S8 features Certificate

Infosys

Jr. Software Developer Intern

LeopardRuns Innovation & Technology, Bhopal

Frontend Development With React.Js

TechSimPlus Learnings , Bhopal

Javascript Certificate

Simplilearn

SKILLS

Bootstrap	CSS	Git	GitHub	HTML
Python	Java	JavaScript		MongoDB
Postman	React.js	Redux	Socket.IO	
Tailwind	Vercel	Visual Studio Code		
Node.js	Express.js	Next.js	ShadCn	
Responsive Web				

PROJECTS

Resume Builder

🔗 <https://resume-builder-by-ankit.vercel.app/>

- A full stack web application where user can easily create and download resume.
- Developed a full-stack Resume Builder enabling users to create, preview, and download professional resumes in real-time using customizable templates.
 - Implemented PDF generation using **Puppeteer** with browser-initiated preview/download popup for seamless user experience.
 - Integrated **ImageKit** to support secure and efficient image uploads for user profile photos.

Student Id Card Generator

🔗 <https://student-idcard-generator.vercel.app/>

- A smart student card generator with customizable templates.
- Designed a dynamic form to capture student details (Name, Roll No, Class, Allergies, etc.) with photo upload functionality.
 - Created multiple customizable ID card templates with built-in QR codes for student data retrieval.
 - Enabled downloading of ID cards as images using 'html-to-image', including support for old card retrieval.

Linkdup

🔗 <https://linkdup.vercel.app/>

- A platform where users can connect, collaborate, and share project updates.
- Developed a full-stack LinkedIn clone using MERN with JWT-based authentication, secure route handling, and real-time updates via Socket.IO.
 - Built key features like profile editing, post creation, likes/comments, and connection requests (send/accept/reject), all with live feedback.
 - Utilized React Redux, useContext, and Zod for robust state management and form validation.
