Education

- **B.Tech in Computer Science & Engineering**, Institute of Engineering and Rural Technology (2024) – 74.8%
- **Class XII**, Dr. Rizvi Learners' Academy (2019) – 84.2%
- **Class X**, Dr. Rizvi Learners' Academy (2017) – 83.6%

Technical Skills

- **Programming Languages:** Python, SQL, HTML, CSS, JavaScript
- **Databases:** MySQL
- **Tools and Editors:** VS Code, PyCharm, Jupiter Notebook, Git, GitHub

Projects

- **IoT-based System for Prediction and Monitoring of Crops through Machine Learning Algorithms**
 - Achieved a 90.36% accuracy rate in predicting crops recommended by developing and deploying a Machine Learning model.
 - Managed data integrity by handling missing values and data filtering.
 - The model supports ongoing learning and gradually improves decision making skills. It is achieved through Machine Learning Algorithms such as Regression, and KNN Clustering.
- **Library Management System**
 - Developed a small project using MySQL for creation and managing a Library database.
 - This project covers all key aspects, including design, workflow, and database structure.
- **Simple Quiz Project** - Developed a basic quiz application in Python. This project covers key aspects of the OOPs concept and Random module.
- **Snake Game** – Implemented the classic snake game using OOP principles and the Turtle library.
- **Flappy Bird Game** – Created a Flappy Bird clone using the Pygame library.

Certifications and Achievements

- Qualified **GATE 2024**.
- Qualified **GATE 2025**.
- Certification of Python Numpy Data Analysis for Data Scientist, AI, ML, DL. "on Udemey"
- Certification of Python for Data Science: NumPy, and Pandas Library for Data handling "on Udemey"
- Authored a research paper: "IoT-based System for Prediction and Monitoring of Crops through Machine Learning Algorithms."

Leadership and Soft Skills

- **Languages** - English, and Hindi
- **Media Head** – College Sports Fest
- **Captain** – College Cultural Fest Udbhav
- **Captain and Media Head** – Alumni Relation Committee
