Education:

United College of Engineering and Research, Prayagraj (UCER)

Dec 2020 – Jun 2024

B.Tech in Electronics and Communication Engineering

SGPA: 7.5/10

Relevant Courses: Microprocessors and Microcontrollers , Networking , Embedded Systems , Electronics (Digital) , Signal Processing, Digital Communication , Internet Of Things , AI.

Experience:

Lets Grow More

July 2023 – Aug 2023

Web Developer Summer Intern

HTML, CSS, JavaScript ,Reactjs , GitHub

- Acquired comprehensive expertise in modern **Software development technologies** , including **React.js** , **HTML,CSS,JavaScript** through intensive industry -ready training.
- Secured Coding Practices, and robust error handling mechanism for real world application.
- Actively Contributed to a collaborative group project during the company internship driving innovation in web design and code optimization.

Projects:

Yuva

[Link](#)

Youth Ultimate Voting Assistant (Arduino, Embedded C++)

- Developed and implemented a high-accuracy biometric **fingerprint authentication** system for secure voting , improving **voter verification accuracy by 35%**, reducing processing time by 50%, and boosting voter confidence by 25%.
- Integrated hardware and software solutions to enhance **voter identification** within existing election infrastructure, ensuring reliable **voter registration**.
- Developed the YUVA **system hardware with** embedded C++ programming and **Arduino**, achieving optimizing system performance and efficiency.

News-App

[Github Link](#)

(HTML, CSS, JavaScript, Git)

- **Built responsive web application** that **fetches** news from the **News API**, utilizing JavaScript, HTML, and CSS which shows real time news.
- Implemented a **user-friendly interface** with **interactive features** such as **category browsing, search functionality**, and **versatile news card generation**, enhancing the **user experience**.
- Integrated the **News API** with **error handling** and **data validation** to ensure **robust** and **reliable** news **retrieval** and **display**.

Kaashi Looms

[Github Link](#)

(HTML, CSS, JavaScript, Git)

- Constructed a Visually Captivating frontend for the E-Commerce website “Kaashi Looms” for Traditional Female Appraisal utilizing HTML5, CSS3, and Vanilla JavaScript.
- Implemented **responsive design with unique landing pages**, Shop, Blog and essential sections like About and Contact, **enhancing user engagement**.
- Set up an efficient development workflow using standard tools, optimizing CSS and JavaScript for performance and ensuring a smooth deployment process.

Technical Skills:

Programming Languages: C++, JavaScript, HTML, CSS.

Libraries/ Frameworks: Tailwind CSS, Shrey JS, GSAP

Databases: DBMS, SQL

Others: Networking, OOP, Git, Github, Vs Code

Achievement:

- Achieved a **2-Star & 200+ DSA problems** on [GFG](#) and [Leetcode](#).
- Secured **IIIT Allahabad HTML, CSS, JavaScript Certificate** in **Web-Development**. [Link](#) [Link](#)
- Secured A+ Certificate in **Python Programming** from UCER. [Link](#)
- Secured **TCS ion** for overall **Professional Career Program** Certificate. [Link](#)
