

Roli Sharma

Angular Developer

Angular Developer with hands-on experience in building dynamic, scalable, and secure web applications using Angular and Node.js. Proficient in developing and integrating RESTful APIs, designing responsive front-end interfaces, and ensuring smooth integration with backend services. Skilled in HTML, CSS, JavaScript, TypeScript, Angular Material, Bootstrap, and performance optimization techniques to deliver fast, user-friendly applications. Experienced in implementing authentication, authorization, and database management for efficient data handling. Passionate about writing clean, maintainable code, following industry best practices, and contributing to innovative, high-quality solutions.

WORK EXPERIENCE

Angular-Developer Kratitech

02/2025 - Present

Kanpur U.P, India

Achievements/Tasks

- Develop and maintain dynamic, scalable, and high-performance web applications using Angular and Node.js.
- Integrate and optimize RESTful APIs for seamless data exchange between front-end and back-end systems.
- Build responsive, user-friendly interfaces with Angular Material, Bootstrap, and modern UI/UX principles.
- Collaborate with cross-functional teams to design, develop, and deploy new features within deadlines.
- Optimize application performance through efficient coding, lazy loading, and reusable components.

Web Developer Intern Kratitech

08/2024 - 02/2025

Kanpur U.P, India

Achievements/Tasks

- Gained hands-on experience in Angular, HTML, CSS, JavaScript, and RESTful API integration.
- Assisted in the development of live projects, focusing on responsive front-end design and UI/UX improvements.
- Learned and applied best practices in code structuring, version control (Git), and project collaboration.
- Worked closely with senior developers to debug, test, and enhance application functionality.
- Revamped multiple websites for making it mobile friendly and having better response.
- Gained insights into the company's tech team operations.

PROJECTS

Pious Factory

- Developed a milk management system for Noida city, streamlining milk distribution, sales, and inventory.
- Implemented role-based authentication for Admin, Distributor, and Vendor logins, ensuring secure access control.
- Used Socket API for real-time communication between distributors and vendors
- Designed an intuitive and responsive UI with AngularJS to enhance user experience.
- Built a robust Node.js backend with MySQL, handling high-volume transactions efficiently.
- Ensured seamless coordination between vendors, distributors, and customers for optimized operations.

MohtaAyurveda

- Successfully migrated the existing app from PHP to Angular17 with nodeJs RESTful APIs integration.
- Admin Panel: Manage products, assign discounts, and manage orders.
- Employee Dashboard: Employees log in, view orders, and update status.
- Customer Management: Manage customers and their orders etc.
- Wishlist and Cart feature with dynamic search.
- MySQL Database: Stores employees, roles, orders etc.
- Responsive UI: Built with Angular & Tailwind CSS.
- Website Link- mohtaayurved.com

Employee Management System

- Responsible for the UI setup with Angular 17 and implemented lazy loading.
- Technology Stack Front-End: - HTML, CSS, JavaScript and Bootstrap Angular16.
- Fully Responsive Design All Device .
- Collaborated with backend developers to integrate RESTful APIs into the application.
