EDUCATION

Dr.Shakuntala Misra National Rehabilitation University

Bachelor of Technology in Computer Science - CGPA - 8.12

Lucknow, UP, India

Dec 2020 – Sept 2024

Jeevan Jyoti Public High School

Class XII, CBSE

Prayagraj, UP, India

April 2019 – July 2020

Green Fields Academy

Class X, CBSE

Prayagraj, UP, India

April 2017 – May 2018

EXPERIENCE

Python Developer [Link](#)

Code Clause

Sept 2023 – Oct 2023

Remote

- Built Library Management System in Python using SQLite and OOP.
- Used SQLite for user authentication and data storage.
- Enabled users to borrow, view, add, and return books.
- Applied OOP concepts to manage users and books efficiently.

PROJECTS

Meal Express | *MongoDB, Express.js, React.js, Node.js*

Live

- Users can signup, login and are securely authenticated using JWT.
- Browse food items, add them to a cart using React.js for frontend.
- Review cart, manage items, checkout with secure Stripe payment integration.
- Admins manage food items, view and update user orders efficiently
- Efficient backend logic, managing routes and API requests using Express.js.
- Cloud-based MongoDB Atlas ensures secure data storage for users and orders.

Easy Mart | *React.js, Tailwind CSS, Firebase*

Live

- Built a dynamic e-commerce web app using React.js for an interactive experience.
- Styled the app with Tailwind CSS to ensure it looks great and is responsive.
- Used Firebase to handle backend services, including user authentication.
- Created an Admin Panel for product management, add, delete, and update.
- Added features for browsing products and managing the shopping cart easily.

Car Market | *React.js, Drizzle ORM, Clerk, Sendbird, Tailwind CSS*

In Progress

- Integrated Clerk for Secure login, signup and managing user accounts.
- Display, search and filter through various car listings with detailed information.
- Integrated Real-Time chat feature between buyers and sellers with Sendbird.
- Modern UI built with Tailwind CSS for both desktop and mobile views.
- Efficient interactions and scalable data management with Drizzle ORM

TECHNICAL SKILLS

Languages: Python, C, JavaScript, SQL

Web Technologies: React.js, Node.js, Tailwind CSS, Bootstrap, Material-UI

Developer Tools: Git/GitHub, VS Code, Postman, PyCharm

Databases: MongoDB, MySQL

Academic Coursework: Data Structures and Algorithms, OOPS, DBMS, Operating System

Soft Skills: Problem-solving, Adaptability, Quick learner, Time Management
