

Objective

Seeking an innovative and challenging role in a dynamic organization where I can leverage my skills and knowledge as a frontend developer. I am eager to contribute to cutting-edge projects, collaborate with a talented team, and continuously develop my technical and professional abilities. My goal is to drive impactful solutions while also advancing my career in a growth-oriented environment.

Technical Skills

- Languages: HTML, CSS, JavaScript, Java, React
- Developer Tools: VS Code, DevCPP, Replit, Figma, MS Office
- Technologies/Frameworks: React, Bootstrap, Tailwind CSS, Node.js Express.js

Education

Integral University	Bachelor of Computer Application
CGPI: 8.5	2024
Dawn Washco School	12th Board Examination from CBSE Board
333/500	2021
SRD Public School	10th Board Examination from CBSE Board
374/500	2019

Projects

Google Gemini Clone

visit: [github](#)

Technologies: HTML, CSS, JavaScript, Gemini API **Description:**

- Developed a fully functional clone of Google Gemini, implementing a chatbot interface.
- Integrated the Gemini API to fetch and display real-time data.
- Created light and dark modes with persistent themes and chat history storage in local storage.
- Enhanced user experience by adding dynamic DOM manipulation and responsive design principles.

Task Manager

visit: [github](#)

Technologies: React.js, Vite, Tailwind CSS

- Developed a Task Manager application where an admin can assign tasks to employees and track past and current tasks.
- Built a User Panel for employees to view their assigned tasks in an intuitive interface.
- Implemented secure authentication for both admin and employees.
- Designed a fast and optimized UI using React with Vite for better performance and styled with Tailwind CSS.
- Focused on state management and API integration to ensure seamless task handling.

Animated Website

visit: [github](#)

Technologies: HTML, CSS, JavaScript, GSAP

- Designed and developed a visually stunning website featuring animations using the GSAP library.
- Created smooth, high-performance animations to enhance user engagement and interactivity.
- Employed responsive design techniques to ensure compatibility across various devices and screen sizes.
- Utilized HTML, CSS, and JavaScript to build a seamless and intuitive user experience.
- Demonstrated proficiency in animation timing, easing functions, and dynamic content transitions.

Achievements

- **Third Place** in a General Knowledge Competition, demonstrating strong knowledge and critical thinking skills.
- **Second Place** in a Science Exhibition, showcasing creativity and practical application of scientific principles
