Objective

Motivated and detail-oriented Full Stack Developer with strong skills in Next.js, React, Node.js, and MongoDB, seeking an opportunity to contribute to innovative web development projects. Passionate about building efficient, scalable applications and eager to apply problem-solving and programming abilities in a dynamic development team.

Project

Vote Gov :[Live Demo](#)

- Developed a complete voting application using MERN stack with Next.js for frontend and Express/MongoDB for backend.
- Designed and implemented an admin dashboard to manage candidates, votes, and party details.
- Integrated real-time updates using RESTful APIs and ensured data integrity through MongoDB.
- Ensured a responsive and accessible UI with React and Tailwind CSS.

Education

- **Virendra Swaroop College of Management Studies**
Bachelor of Computer Applications (BCA)
2022 – 2025
- **Christ Church Inter College, Kanpur**
Senior Secondary (12th), Uttar Pradesh Board – 2020
Secondary (10th), Uttar Pradesh Board – 2018

Skills & abilities
