Address: Vill & Post Bharsar Dist Ghazipur Uttar Pradesh, 233300

Phone: +91-8299001558

Email: sandeepchandra824@gmail.com

Date of Birth: 10-07-1997

CAREER OBJECTIVE

Results-driven Full Stack Developer with expertise in Python and Django and proficiency in HTML, CSS, JavaScript, and Bootstrap. Seeking an opportunity to leverage my skills and certification to contribute to dynamic projects and deliver high-quality web applications.

SKILLS

- Frontend Technologies: HTML, CSS, Javascript, Bootstrap
- Backend Technologies: **Python with Django**
- MS Excel: Proficiency in MS Excel for data analysis and modeling.
- Other Skills: Responsive Web Design

CERTIFICATIONS

Certification in Python with Django framework

Certification Issuing Body : SOFTPRO India Computer Technologies

- Developed responsive frontend interfaces using HTML, CSS, JavaScript, and Bootstrap, resulting in improved user engagement.
- Designed and implemented backend logic using Python and Django, including database models, API endpoints, and authentication systems.

Duration: 25/07/2023 to 15/09/2023

CERTIFICATION PROJECT

eGyan - Learning Management System

- Led the design and development of an e-Gyan Portal, a comprehensive Learning Management System (LMS) using **Python with Django** as the backend framework. Utilized **SQLite** for efficient database management.
- Successfully implemented and integrated various modules, including Student Information System, Login Management, Discussion Forum, Complaint Management, Feedback, Notification Management, Course Management, Study Material Management, Study Center Management ensuring a robust and feature-rich LMS.
- Implemented and integrated Email and SMS integration in the module.
- Designed a user-friendly interface and ensured seamless user experiences, enhancing engagement and accessibility for students, instructors, and administrators.
- Efficiently managed and maintained data integrity using SQLite databases, ensuring the reliability and performance of the LMS.

ACADEMIC PROJECTS

Grid Islanding Using Temperature Sensor

Project Guide : Prof. Rafik Ahmad

- Led a team in developing a cutting-edge system that utilized a temperature sensor and Arduino microcontroller to ensure seamless power supply from one grid to another.
- Successfully implemented grid islanding to prevent blackout conditions when the temperature of the first grid reached a threshold value.
- Designed and programmed the Arduino-based control system to monitor the temperature and trigger the switch between grids automatically.
- Conducted extensive testing and simulations to validate the reliability and effectiveness of the system.

EDUCATION

Bachelor Of Technology in Electical Engineering

2015 - 2019

Babu Banarasi Das National Institute Of Technology and Management Lucknow, Uttar Pradesh

Percentage : 79.2 %

Intermediate

2013

Govt Inter College Allahabad, Uttar Pradesh

Percentage : 82.8 %

High School

2011

Govt Inter College Allahabad, Uttar Pradesh

Percentage : 73.3 %

HOBBIES

Playing Chess, Listening Music, Cooking

PERSONAL ACHIEVEMENTS EXTRA CURRICULAT ACTIVITIES

- "A" and "B" Certificate in NCC
- Participated in Gantavya Transformer Event.
- Participated in Junior Redcross
- Participated in Cricket Match in Hostal Premier League.
- Participated in Aptitude and soft skills, Yellow Belt Training Program organised by Dream Uny Education Pvt Ltd.
