HACKATHON

Namma Yatri (Juspay)

(June 07, - Bengaluru Open Mobility Challenge' 23

2023)

Worked on the problem statement - User frequency & Retention and secured first place by winning this category with our solution.

WORK EXPERIENCE

DIA- Integral University

(February 06, 2023 - April 13, 2023)

Front-end Intern

- Developed responsive and user-friendly web interfaces using HTML, CSS, and JavaScript
- Lead in the design, development, and implementation of the graphic, layout, and production communication materials
- Translated wireframes into pixel-perfect web pages, ensuring adherence to design guidelines and brand standards
- Optimized web performance, including page load times, responsiveness, and accessibility.
- Collaborated with cross-functional teams to ensure seamless integration and functionality of website.
- Technologies used: HTML, CSS, JAVASCRIPT, BOOTSTRAP,

http://136.232.12.194/IntIU/

EDUCATION

Integral University

(September 01, 2020 - Present)

Bachelors of Technology , Computer Science

9.0

PROJECTS

Alumni Connect

(June 09, 2023 - Present)

built a platform to connect with alumni's

- Developed a web platform using React JS for the frontend to connect college students with alumni by providing access to their profiles.
- Created a system for college students to manage alumni profiles, allowing them to showcase achievements, experiences, and contact information.
- Implemented a robust backend using Firebase for efficient data storage, retrieval, and real-time updates.
- Integrated advanced search and filtering functionality, enabling students to find specific alumni profiles based on criteria such as graduation year, industry, location, and expertise.
- Ensured secure user authentication using Firebase Authentication, protecting user data and privacy.
- Employed responsive design principles, making the platform accessible and optimized for various devices, including desktops, tablets, and mobile phones.
