Profile

Highly motivated BTech CSE graduate seeking an entry-level position to leverage my technical skills and contribute to innovative software solutions. Eager to learn and grow in a collaborative and fast-paced environment.

Education

Dronacharya groups of institutions, <i>BTech</i>	2024
Md mir ali ssc school, <i>Intermediate</i>	2020
RPM academy, <i>High school</i>	2018

Experience

Edunet foundation (Aicte), *Front end developer intern*

- Designed and coded user interface for an Amazon clone website using HTML, CSS, and JavaScript.
- Demonstrated proficiency in web development and responsive design principles.

Skills

Languages

- Html/ css
- mysql
- python

Additional skills

- Javascript
- Ms office

Familiar with

- Mongo db
- Git

Projects

Hand sign to audio converter

Developing a Hand Sign to Audio Converter using Python and computer vision techniques to aid individuals with hearing impairments. Recognized hand gestures from webcam feed using machine learning models, then converted them into audio output in real-time using speech synthesis libraries. Conducted testing and collaborated with a team to refine the system for improved usability and accessibility, demonstrating proficiency in computer vision, machine learning, and software development, with a focus on inclusivity.

Snake game

- Developed classic arcade-style game using arrays, loops, and conditional statements.
- Implemented grid layout for game board and snake movement logic.
- Integrated collision detection for walls and snake's body.

Trainings

Microsoft AI

acquired
proficiency in Python programming for data analysis and machine learning.
