PROFILE SUMMARY

I am a passionate and self-motivated web developer with a strong foundation in frontend technologies like HTML, CSS, JavaScript, and React JS. I am eager to apply my skills in developing responsive, user-friendly websites and applications. Looking for an entry-level opportunity where I can contribute to the team and grow my skills.

EDUCATION

2020 - 2023

- Bachelor Of Computer Application

2019 - 2020

- 12th PCM

2018 - 2019

- 10th PCM

PROJECTS

1. Zerodha

- Technologies Used: HTML, CSS
- Description: Built an online homepage of a SEBI-registered broker that offers low-cost trading and investing services with fully responsive functionality.

2. ESHOP

- Technologies Used: HTML, CSS, React JS
- Description: This project focuses on creating a user-friendly interface with a responsive design, using modern frontend technologies. It uses arrays to store product information and shopping cart items, making it easy to display products and update the cart as users interact with the platform. Additionally, the project incorporates state management for seamless user interaction and React Router for smooth navigation between pages. It also features dynamic product filtering and sorting options, enhancing the user experience by allowing efficient browsing.
