Android Developer

+91 7755857450 Ankitkush11@gmail.com Boisar, Maharashtra github.com/AnkieTechie linkedin.com/in/ankietechie

CAREER OBJECTIVE

Passionate Android developer with 1 year of hands-on experience in building and publishing apps on the Google Play Store. Proficient in both Kotlin and Java with expertise in modern development using Jetpack Compose as well as traditional XML-based UI development. Skilled in MVVM architecture, Hilt DI, Firebase, and contemporary Android development practices. Seeking opportunities to contribute to innovative and impactful mobile applications while continuously learning and growing in a dynamic development environment.

EDUCATION

Bachelor of Engineering – Electronics & Telecommunications

2011 – 2015

Savitribai Phule Pune University

SKILLS

Languages & Tools

Java, Kotlin, Groovy, XML, Android Studio

Frameworks & Architecture

Jetpack Compose, MVVM, MVP, Hilt DI

Libraries & APIs

Retrofit, Coil, Picasso, Firebase

Database & Storage

SQLite, Room, SharedPreferences, Firestore

WORK EXPERIENCE

Android Developer

Nov 2024 – Nov 2025

JustAcademy

- Built functional and scalable Android applications with focus on user experience
- Worked extensively with Retrofit for REST API integration and Picasso for efficient image loading
- Implemented Room database for local data persistence and offline-first architecture
- Integrated Firebase services including Analytics, Crashlytics, and Cloud Messaging
- Utilized SharedPreferences for storing user preferences and app settings
