Summary

Enthusiastic Software Developer specializing in Android and Web Development, seeking to leverage my technical skills and passion for problem-solving. With expertise in Java, Kotlin, Spring Boot, and RESTful services, I aim to contribute to innovative projects. I have experience in UI/UX design and Agile methodologies, and I'm committed to delivering high-quality software solutions while collaborating effectively with talented teams.

Key Skills

- **Android Development:** Android Studio, Java, Kotlin, Android SDK, UI/UX Design
- **Web Development:** HTML, CSS, JavaScript, React, Bootstrap
- **Backend Development:** Java, Spring, Spring Boot, RESTful APIs, RESTful services
- Debugging & Troubleshooting
- **Version Control Systems:** Git
- **Methodologies:** Agile methodologies

Technical Skills

Programming Languages: Java, C#, C++, Python, JavaScript

Frontend Tools: HTML, CSS, JavaScript, React, Bootstrap

Backend Tools: Spring Boot, RESTful APIs, Retrofit, Room, Dagger

Operating Systems: Linux, Windows

Experience

Android Developer — Megma Groups Pvt. Ltd. — Nov 2023 - May 2024

During my Android development internship at Megma Groups:

- Collaborated closely with senior developers to implement new features, improving user experience and application performance by 20
- Developed proficiency in Android SDK and Java through hands-on experience, implementing best practices in UI/UX design.
- Contributed to code reviews, debugging sessions, and performance optimization efforts.
- Participated in testing and troubleshooting activities to ensure application reliability.
- Utilized Agile methodologies to manage development cycles and improve team collaboration.

During my pursuit of the Cisco Networking Academy:

- Developed IPv4 and IPv6 addressing schemes for network connectivity.
- Learned subnetting and network segmentation.
- Explored routing protocols like OSPF and EIGRP.
- Implemented VLANs and trunking for network security.
- Configured and troubleshooted routers and switches.

EDUCATION

MCA (Pursuing) — HARCOURT BUTLER TECHNICAL UNIVERSITY 2026

BCA — LNCT UNIVERSITY 2023
84.9%

CLASS 12 — SIDDHARTH PUBLIC SCHOOL 2020
78%

Projects

Recharge Application

Developed a recharge application to facilitate mobile recharge and bill payments:

- Designed an intuitive interface for seamless navigation using **Java** and **Android SDK**.
- Integrated payment gateways for secure transactions.
- Utilized libraries such as **Retrofit** for network requests and **Room** for local data storage.

Enterprise Networking Project

Created a packet tracking system similar to enterprise-level services:

- Developed an intuitive user interface for tracking packets throughout the network using **Java**.
- Implemented real-time tracking functionality using Cisco networking technologies.

Certifications

Advance Android Development (Java) — Megma Groups Pvt. Ltd. Nov 2023
Certificate URL: <https://rb.gy/yrmrp9>

Networking Academy — CISCO Jan 2022
Certificate URL: <https://rb.gy/0x5w4c>

Training & Workshops

Android Development — Megma Groups May 2024
Networking Academy — CISCO Feb 2023

Soft Skills

- Team Collaboration
- Effective Communication
- Problem-Solving
